

U.S. ORDERS PROBE OF STRIKE; SEVERAL SHOT IN NEW RIOTS

PRESIDENT KING GETS SPEAKS TO 3 CROWDS AT RENO

Talk In Small Theater Is Re-
layed to Two Others
By Magnavox

PLATFORM ADDRESSES
GIVEN ALONG ROUTE

"Pleased With Your Better
Half," Man Shouts to
Mrs. Wilson

ABOARD PRESIDENT'S TRAIN,
LEMAI, Utah, Sept. 23.—Taking ad-
vantage of the sparsely settled coun-
try, President Wilson spent much of
today in his office aboard the train
working on governmental matters. It
was understood he had before him re-
ports on the clashes which marked the
beginning of the steel strike. There
was no hint of what action if any the
government might take at his direction.

(United Press Staff Correspondent)
RENO, Nev., Sept. 23.—President
Wilson, here on his tour in behalf
of ratification of the peace treaty, was
met by a large crowd. "The Star
Spangled Banner" was sung by several
girls in the audience.

Someone called for Mrs. Wilson.
"Here is the best part of this travel-
ing show," smiled Wilson, introducing
her.
A man in the crowd, who seemed a
trifle unsteady, yelled out:
"Mrs. Wilson, I would like to make
a statement; I am very much pleased
with your better half." The President
and Mrs. Wilson joined in the laughter.
The President was en route to Og-
den and Salt Lake City and at sev-
eral towns made stops long enough to
make rear platform talks.

The talk here was given in a small
theater, but his voice was carried over
the telephone wires by means of the
magnavox to three other theaters in
the city.
With regard to his opponents, Wil-
son said their objections to the treaty
were bugaboos. "They are condemn-
ing their desire to safeguard a means
of quick withdrawal from the league,"
he said.
"If they ever feel the impulse of
courage instead of the impulse of
cowardice, they will realize how much
better it feels."
He won the greatest burst of ap-
plause when he said: "Answering those
who fear the league will get the
United States into trouble, I want to
get into any kind of trouble that will
help liberate mankind."

M'ADOOS IN L. A. FOR DIRECTORS' MEETING

LOS ANGELES, Sept. 23.—Former
Secretary of the Treasury William G.
McAdoo, wife and daughter, are in
Los Angeles today for an indefinite
stay. McAdoo is here to attend a di-
rectors' meeting of the United Artists'
Corporation, the Pickford-Griffith-
Chaplin-Fairbanks motion picture or-
ganization, with which he is connect-
ed.

\$4,700,000 FOR HOME
LONDON, Sept. 23.—Lady Beatty,
formerly Ethel Field of Chicago, has
been a campaign for a \$4,700,000 ma-
ternity home for the wives of British
sailors.

Some Representatives of Steel and Metal Workers, Engineering Nationwide Strike

Here is a group of representatives of the steel and metal workers. Bottom row, left to right, are F. E. Langdon, John Fitzpatrick, Harry J. Stahl, William Hannon, James O. Sause, William J. Bowen. Back row, W. N. Welsh, B. J. O'Brien, J. Manley, M. F. Tighe, J. B. Etchison, W. Chase and William Z. Foster.

THREE CONFESS TO \$234,000 ROBBERY

CHICAGO, Sept. 23.—Three Chicago-
goans, accidentally trapped, confessed
today to a robbery of \$234,000 from
the mails. Officers recovered \$93,620
of the loot and went in search of the
remainder when the prisoners told
where it was cached. With the aid of
a postal clerk, the men exchanged
pouches at Whiting, Ind., last Thurs-
day, taking the pouch containing
\$234,000 to meet the payroll of the
Standard Oil Company of Indiana.

The men held are Leo and Walter
Filipkowski and John S. Wejka. Wejka
is a mail clerk and is implicated in
the alleged confessions as the man
who prepared the fake pouch and ar-
ranged matters so the one containing
the money could be identified by the
Filipkowskis when tossed from the
train at Whiting.

PARLIAMENT OPENING IN ITALY IS DELAYED

ROME, Sept. 23.—The crisis the
Italian government faces in Gabriele
D'Annunzio's adventure at Fiume
brought forth significant action today.
A royal decree was issued, postponing
the re-opening of parliament until
Saturday and calling a session of the
crown council, to be held Thursday.
The Tribuna, commenting on the
summoning of the crown council,
points out the event is most impor-
tant and directly connected with the
Fiume problem, "which involves the
highest and most permanent interests
of the country."

The Idea Nazionale declares the call-
ing of the council is unprecedented
and unconstitutional, characterizing it
as Premier Nitti's method of trying to
save his cabinet.

WOMAN BADLY BURNED IN SALT LAKE BLAZE

SALT LAKE CITY, Utah, Sept. 23.—
Miss Lulu Johnson was burned,
probably fatally, and three others
were badly burned today in a fire that
partially destroyed the Albany Hotel.
The fire, it is believed, was of in-
cendiary origin. The man who fired
the hotel is believed to have been the
same who set fire a half-hour earlier
to the Denver and Rio Grande lumber
yards. Those injured in the fire were
taken to the emergency hospital.

Picturesque Homes of Arroyo Seco In Forest Fire's Path

LOS ANGELES, Sept. 23.—Thou-
sands of dollars worth of picturesque
homes in Arroyo Seco near Pasadena
were in grave danger of destruction
early today from the forest fire which
during the night was swept by a
heavy wind, to within two miles of the
Arroyo.

The watershed of the Pasadena dis-
trict was reported in danger and Pas-
adena's water supply threatened.
Reports to the office of the forest
service were that there seemed to be
little chance of saving that portion
of the Angeles forest lying in Paroli-
ma Canyon from destruction.

Several ranch houses are believed
to have been cut off by the fire during
the night and possibly have been de-
stroyed. No lives are known to be in
danger.

At the same time the first in the
San Gabriel Canyon, which was con-
trolled last week, has broken out
again and fire fighters have been sent
to the scene from Monrovia.

NEW HALL, Cal., Sept. 23.—Sweep-
ing down the mountainside into the
San Fernando valley the forest fire in
Earlsmere canyon this afternoon is
within a mile and a half of Newhall.
The \$200,000 pumping plant of the
Standard Oil Company is in danger.
The company is mobilizing fire fight-
ers around the plant.

SAN FERNANDO, Cal., Sept. 23.—
Fire burning in the hills near New-
hall today is rushing onward still un-
controlled. Over a score of cabins and
homes have been destroyed, including
the home of Dr. Dillon of Los An-
geles. The residence of A. Van Winkle
was destroyed during the night and
a thrilling dash for safety. The heat is
becoming unbearable and ashes are
falling like snow throughout the San
Fernando valley.

MONROVIA, Sept. 23.—With the
forest fire in the San Gabriel canyon
fanned by a wind, calls were sent to-
day to Monrovia, Azusa, Glendora and
Los Angeles for fire fighters. Women
and children refugees from the fire
began arriving in Azusa. A force of
200 fire fighters was organized today
at Monrovia and 100 more in the vi-
cinity of Azusa. Two hundred came
from Los Angeles. The fire is within
seven miles of the mouth of the San
Gabriel canyon. Camp Rincon on the
east fork of the San Gabriel has been
destroyed. Many cabins, several bun-
galows and a few ranch houses have
fallen before the flames. No lives
have been lost.

BAD SHIP, CAPTAIN ILL
LIVERPOOL, Sept. 23.—The Amer-
ican steamship Westimboden has ar-
rived here from Galveston, Tex., with
Captain Ferguson, her skipper, prostrated
because the ship is unsea-
worthy. The vessel was built in Amer-
ica in thirty days.

SPURNED SUITOR KILLS WOMAN AND SELF

SAN BERNARDINO, Cal., Sept. 23.—
Searching for her mother who had
failed to return home last night, the
daughter of Mrs. Nellie Luning of San
Bernardino stumbled across her
mother's body early today in a dark
alley behind the home of Mrs. Sarah
Mathis, Mrs. Luning's grandmother.

A blood clot wound showed where
a bullet had pierced Mrs. Luning's
heart.

Beside the body of Mrs. Luning was
that of Bert Slater, bearing a single
shot through the right temple. Slater's
hand tightly gripped a revolver from
which two shots had been fired.

Police, after an investigation, said
they had learned that Slater had been
attentive to Mrs. Luning, who had
been divorced from her husband. Re-
cently, the police said, Slater returned
from an extended trip to the moun-
tains and found that any affection of
Mrs. Luning for him had cooled.

Last night, they said, Slater went
to Mrs. Luning's home in an attempt
at reconciliation. Mrs. Luning is re-
ported to have fled and police believe
that Slater overtook her as she was
dashing into the home of her grand-
mother by a rear entrance, shot and
killed Mrs. Luning and then commit-
ted suicide.

POLICE ON GUARD AS STRIKEBREAKERS WORK

SAN FRANCISCO, Sept. 23.—With
strike breakers busily engaged today
along the waterfront loading and un-
loading ships, police details there
were doubled in anticipation of possi-
ble trouble.

The longshoremen gathered at 10
a. m. to vote once more on the com-
promise offered by the employers.
Thirty-four ships have stood idle,
while tons of perishable freight await
handling. There is a blockade of river
and bay steamers.

SIX KILLED BY BOMB
MEANT FOR KOLCHAK
LONDON, Sept. 23.—A wireless dis-
patch from Moscow today reported
that an attempt had been made to as-
sassinate Admiral Kolchak, head of
the Omsk government. A bomb was
thrown into a guard room, killing six
and injuring twelve soldiers, the mes-
sage said. The admiral escaped unin-
jured.

PRESIDENT GARY WILL BE FIRST WITNESS IN INQUIRY ON THURSDAY

Two Dead and Eleven Wounded at Farrell, Pa., During
Fighting; Three Hundred Deputies Rushed to Scene;
Workmen Gaining Ground In the Smaller Districts But
Situation Around the Big Pittsburg Mills Is Unchanged

NEW YORK, Sept. 23.—The second day of the nation-
wide steel strike was marked by government action in the
form of a resolution unanimously passed by the senate for an
investigation of the causes of the strike.

Senator Kenyon at Washington who introduced the
resolution referred to the strike as the first skirmish in an
industrial war in the United States. The investigation will
be made by the senate labor committee to determine whether
the situation warrants congressional action.

President Gary of the steel corporation will be the first witness
called when the investigation begins on Thursday. This action fol-
lowed the growth of strike disorders in Farrell, Pa., and Buffalo, N. Y.
During the morning Mayor Moody of Farrell sent word to the sheriff
of his county that the situation was beyond control. Two persons had
been killed and eleven wounded in the riots at Farrell since yesterday.
In response to the mayor's appeal the sheriff sent 300 deputies to
Farrell.

Two additional companies of state constabulary also are enroute into the
steel district.

Strike Centers Around Pittsburgh.

With the strikers apparently gaining ground in the other steel district the
industrial warfare continues to center in the Pittsburgh district where gains
and losses from the number of men out seem to be about evenly divided. The
strikers claim that 6,000 additional men were on strike there today but this
was refuted by steel officials.

The strikers' biggest victory was won when the Lackawanna Steel Com-
pany closed its plant at Buffalo. The Donner Steel Company in that city was
also expected to shut down tonight or tomorrow. In several of the smaller
towns of the Pittsburgh district the operators claimed that twice as many men
were at work today as yesterday.

In Chicago union leaders showed figures to indicate that 67,000 were out
of work.

Rioting, which broke out in Buffalo during the night, was resumed early
today. Michael F. Murphy, general master mechanic of the Lackawanna
Steel Company, was seriously injured in a clash with strikers. Two arrests
were made.

Three Riot Calls During the Night.

During the night three riot calls were answered by police reserves, follow-
ing street fights between police and strike pickets. Several persons were in-
jured. One man was taken to the hospital with a fractured skull.

One hundred and forty switchmen, employed by the South Buffalo railway,
an adjunct of the Lackawanna plant, went on strike at 8 o'clock this morning,
tying up switching within the company yards.

Employers and workers alike apparently have abandoned their early hopes
of a quick, decisive victory. The steel masters were reported to be bringing
stocks of food into their plants and laying plans to defend their mills if neces-
sary, while the strikers were getting ready to carry on industrial warfare for an
extended period.

Affiliated unions have begun to go out in sympathy with the steel workers.
Several hundred switchmen are on strike in Cleveland. Whether the Great
Lakes seamen's union, handling ore freighters between the Lake Superior iron
mines and the steel center would go out had not been decided at 10 a. m.

William Z. Foster, secretary of the strikers' committee, continued to
maintain that 279,000 were out. Corporation officials reiterated that not more
than 75,000 had struck.

Many Mills Run As Usual, Quiet Around Pittsburgh

By FRED S. FERGUSON
(United Press Staff Correspondent)
PITTSBURGH, Pa., Sept. 23.—The forces of organized labor and the
United States Steel Corporation are struggling for control of America's great
"iron valley," as the nation-wide strike of steel workers enters its second day.
Following a night of scattered struggles between police and strikers and of
bloodshed in nearby sections, crowds of workmen were again before the gates
of mills in the Pittsburgh district early today.
At Farrell, Pa., two men were killed and two wounded when shots were
exchanged between company police and strikers during a riot near the
(CONTINUED ON PAGE TWO)

STRIKERS RENEW RIOTING

START DRILLING FOR OIL ON EL MODENA RANCH

BY FRANKLIN AUSTIN
(Orange County Oil News Service—Copyright 1919)

The Petroleum Corporation of America, with a capitalization of \$50,000,000, which has only come in existence within the last few months, simultaneously with its merging operations taking place in all of the eastern oil fields, the company's representative, Martin J. Bentley, has been silently at work securing oil leases and large contracts of land, principally in Orange county.

The initial operations of the Petroleum Corporation in California will begin in Orange county almost immediately. Approximately 1600 acres of land have been secured and the work of drilling the first well will be begun at once on the land of Mary J. Bond at El Modena. In addition to this extensive tract of land the Corporation has secured holdings in California approximating about 4000 acres, nearly all of which is in Orange county.

Three initial wells, besides that on the Mary J. Bond lease, are already in contemplation and operations in other locations will be rapidly pushed.

I have followed Mr. Bentley's mysterious movements for a month, very much puzzled by his negotiations for large tracts of land which, to lay minds, seemed not to have the remotest prospect of oil, yet, he says oil leases should not be taken on lands which do not indicate at least a sixty per cent probability of striking oil. As his negotiations for lands extend from the Richfield Oil Field through El Modena almost to the ocean at Newport, it must be concluded that in his opinion the oil fields of Orange county have a far greater extent than the most sanguine expectations could possibly picture—and he brings to his work the vast experience of a lifetime in oil.

Mr. Bentley claims to have located the structure far below El Modena and into the Irvine ranch. He thinks that the Orange county oil fields hold out the most extraordinary prospects for future development of any place he has visited in California.

DELEGATES TO CONFERENCE
WASHINGTON, Sept. 23.—The department of labor today announced the three delegates selected by farmers' organizations to attend the round table conference at the White House October 6. They are P. S. Barrett, president of the Farmers Co-operative Union; J. M. Titterton, head of the American Society of Equity; T. O. Atkeson, head of the National Grange.

STEEL PRICES STRONG WHEN MARKET OPENS

NEW YORK, Sept. 23.—The second day of the steel strike today found stock market prices strong at the opening. Following a decided upward swing at the close of Monday's trading, leading issues, with a few exceptions, today continued to advance.

United States Steel, which reached 102 3/4 at the close yesterday, although still strong at the opening today, was off 1/2. Crucible opened at 182, unchanged; Bethlehem B at 97 3/4, up 1/4; Midvale at 49 1/4, off 1/2.

TREATY ENEMIES WIN FIRST SENATE CLASH

WASHINGTON, Sept. 23.—Opponents of the peace treaty today won the first test of strength in the senate, voting on the peace treaty.

By a vote of 42 to 40 the senate passed over for one week the third amendment to the treaty which is one of the series proposed by Senator Fall of New Mexico. The amendment eliminates the United States from membership in the Belgium boundary commission.

NEW SELIG PLANT
LOS ANGELES, Sept. 23.—An apparently authentic report that the million-dollar Chicago motion picture plant of Col. H. W. Selig is to be moved to Los Angeles soon, caused a stir in movie circles here today.

STRIKERS WON'T CONFER WITH EMPLOYERS DURING FIGHTS WITH POLICE

Fifteen Thousand Men Out In Calumet District; Little Change

BY J. L. O'SULLIVAN
(United Press Staff Correspondent)
GARY, Ind., Sept. 23.—With probably 15,000 steel workers in the Calumet district out, the second day of the steel strike here found the situation unchanged.

The only move toward conciliation was made by the Hubbard Steel Company of East Chicago, which asked the men for a conference. Strikers refused this.

The Hubbard company then announced that it planned to operate today despite refusal of strikers to negotiate. Hundreds of strikers gathered before the gates in the early morning, waiting for strike-breakers or any other workers to enter the plant. The entire police force of East Chicago was sent to the scene and dispersed the crowd. Police stated that the plant did not start operations. The Hubbard company was one of the few plants in the Calumet district which officials admitted was completely tied up by the strike.

Both employers and strikers evidently were prepared for a long battle. During the first 24 hours they surveyed the situation, counted their men and arranged their forces.

Pickets Are Inactive
Pickets around the Gary plant of the Illinois Steel Company, the largest in the district, were practically inactive today. There were hundreds of pickets with their long white ribbon badges, but there were few workers for them to argue with. During the last two changes of shifts—6 o'clock last night and 6 o'clock this morning, but a few score of workers left the closely guarded gates.

As company officials yesterday claimed they had 3000 "loyal" employees, union men declared the fact that no one left the gates proved reports of huge stores of food and beds so that the workers would remain constantly inside the walled and guarded plant.

The few workers who did leave the plant were taken out in automobiles and buses which were heavily guarded. A few were carrying their tools home.

Officials of the American Sheet and Tin Plate Company announced "if the situation becomes critical" they had sufficient food and bed clothes to keep the men at their plant.

Union men merely pointed to the North Star last night in answer to claims by officials of the Gary plant that machinery was operating full force. For the first time since establishment of the plant the northern heavens failed to reflect the bright, red glow of the blast furnaces, which obstructed a view of the stars. Only a pink reflection, through which the North Star could be plainly seen, was observed.

Four Furnaces Going
Only four of the twelve blast furnaces were operating. Union men declared that was the "indicator." If only one-third of the furnaces were operating, they were certain that not more than one-third of the other machinery was going.

Strikers seemed to regard the affair as a holiday. They paraded the streets of Gary until late hours.

Mayor Hodges, in commenting on the fact that there had been no disorder, said that it was probably due to the fact that crowds were not allowed to loiter. The mayor was personally in charge of the police force and extra guards, directing the work of keeping everyone except pickets on the move.

Judge Dunn has warned that any one convicted on the charge of carrying concealed weapons would be given the maximum penalty—\$500 fine.

Officials of the steel company declared they had sufficient supplies on hand even if the seamen's union voted to strike. They pointed to six large ore vessels which docked during the night.

Published reports of strike-breakers being imported into the Calumet district were found to be without foundation.

Lift off Corns!
Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus, instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Men at Buffalo, N. Y., and Farrel, Pa., In Battles Use Guns, Stones

(Continued from Page One)
plant of the American Steel and Wire Company. At New Castle seven persons, including two women, were wounded during the same sort of outbreak. The Carnegie Steel Company asserts the fighting followed an attempt of strike sympathizers to break into the mill by tearing down the fence. City officials have asked that a detachment of state constabulary be sent to Farrell. Rioting also broke out at Youngstown and other smaller centers, but Pittsburgh district remained almost ominously quiet.

Many Going to Work
From Duquesne, Clairton, Homestead, Braddock and similar points in the Pittsburgh district, police reported men going to work as usual early today. At Clairton it was stated three times as many men reported for work in the mills today as were on hand at the opening yesterday. At Homestead it was stated the number entering the mills was also greater than yesterday. The police of Braddock said double the number entered the mills this morning. No disorder was reported in any of the towns.

Today is vital to both sides. The union leaders claim that more men will be out of the mills today than were out yesterday. The company officials assert that having overcome their fear of union organizers and of being classed as a "scab," many men who remained away yesterday will return to the mills today.

Clairton Declared "Verdun"
Clairton is looked upon by steel men as the "Verdun" of the Carnegie Steel Company. Clairton must be held if other plants of the organization are to operate. It is from Clairton that comes the coke and many other by-products on which other mills work.

It was admitted last night that it had been necessary to bank the furnaces at Clairton and the finishing mill was also closed. The Duquesne plant of the Carnegie Steel Company was reported standing like a rock and operating 100 per cent again today.

William Z. Foster's latest figures claimed 279,000 men out on strike in all sections. The seriousness of the situation in the Chicago, Cleveland and Youngstown districts is not denied by company officials, but they stoutly insist the union men have not got as much as they claim in the Pittsburgh district, the heart of the industry.

Farrell Strikers Meet and Take Action to Keep Order

SHARON, Sept. 23.—After renewed outbreaks this morning at Farrell, in which two men received bullet wounds sent them to the hospital and several others were slightly hurt, more than 1000 striking workmen marched to the Ohio state line, where they held an open air meeting.

After addresses by Mayor Moody and labor leaders, the men, nearly all Americans, unanimously pledged themselves to keep off the streets and lend every assistance in preserving order. All meetings in Farrell have been prohibited.

Sixteen Cleveland Steel Mills Out of 20 Closed

CLEVELAND, O., Sept. 23.—Of twenty steel mills in Cleveland, sixteen were closed, three seriously crippled and only one operating at normal today.

All plants of the American Steel and Wire Company, independent, were shut down.

The Union Rolling Mill Company, independent, is operating at normal by virtue of the contract with the Amalgamated Association of Iron, Steel and Tin Workers. An effort was made today by the Otis company to open its foundry. Police protection was demanded. H. W. Ralston, in charge of the strike in the Cleveland district, held to his yesterday's figures of 26,000 strikers. He said unorganized workers were being enrolled rapidly.

Southern California Has Big Lot of Steel on Hand

LOS ANGELES, Sept. 23.—Southern California industrial plants have little to fear from the steel strike, officials of various companies declared today. They said there are large stocks of materials on hand and it will take a long tie-up to be felt seriously here.

Engineers at Steel Mills Ordered to Stay at Work

CHICAGO, Sept. 23.—Steam and operating engineers in the steel mills must remain at work or suffer revocation of their union charters, according to H. H. Comerford, international secretary of the union.

Comerford criticized William Z. Foster and John Fitzpatrick, leaders of the steel strikers, as defying the wishes of the president by going ahead with the strike. Comerford said only radicals among men of his union had struck in sympathy with steel workers, but that many others were thrown out of work when mills ceased to operate. Comerford said he believed Samuel Gompers did not sanction a steel strike now.

The secretary quoted President Milton Snelling of the engineers' union as

Making a purely vegetable Medicine

1875—1919

In 1875, Lydia E. Pinkham of Lynn, Mass., gathered and dried the roots and herbs which she used in the now famous Lydia E. Pinkham's Vegetable Compound, from the fields and forests,—then steeped them on her kitchen stove and filled a few bottles at a time, to alleviate the suffering of her women friends, neighbors and acquaintances, and the success of this medicine was unparalleled.

After 44 Years

These illustrations show the present method by which vast quantities of this well-known remedy are produced and from exactly the same kind of roots and herbs used by Mrs. Pinkham in the beginning.

First—The various herbs used are of the finest quality, and gathered at the time their medicinal strength is the highest.

Second—After the herbs are properly ground and mixed, the medicinal properties are extracted by soaking in large stone jars, covered.

Third—Then the extract is drained through percolators, acting somewhat like a coffee percolator.

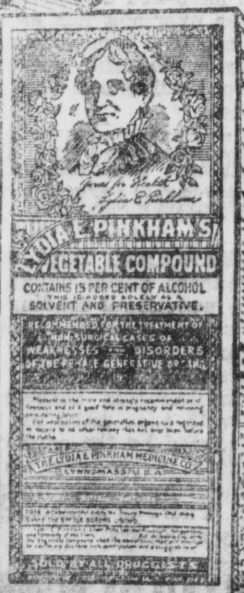

Fourth—To insure a thoroughly pure medicine, it is carefully pasteurized by heat in special apparatus, and bottled hot.

Throughout the entire process, from the crude herb to the finished medicine in bottle, cleanliness and exactness are the watch-words.

The Reliability of Testimonials Guaranteed

The testimonials published by the Lydia E. Pinkham Medicine Company come to them unsolicited. Never knowingly have they published an untruthful letter, never is a letter published without the written consent of the writer. The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness. It is easy to realize how these poor, suffering women feel when restored to health; and their keen desire to help other women who are suffering as they did.

PHONE EXPENSE
CONTRIBUTIONS
COMING SLOW

Little More Than Half of the Amount Needed Has Been Raised

Contributions to the Chamber of Commerce to pay Santa Ana's proportion of the expense incidental to the organization of a mutual telephone system in the county are not coming in as fast as they should and today but little more than half of the quota of \$273 has been collected.

Members of the Chamber of Commerce and others who will benefit directly by the establishment of a mutual system are asked to donate \$1 or more to the fund.

Organization of the mutual system has proceeded to the point of securing a state charter for the operation of the Orange County Farmers and Merchants' Association and a county franchise has been granted. It takes money for the preliminary work and telephone subscribers within the Santa Ana exchange should come forward without further delay and help in bearing the expense.

About \$145 has been subscribed so far. Every other exchange district in the county met its obligation long ago. Santa Ana has not. Subscription can be mailed into J. C. Metzgar, secretary of the chamber.

Following is a list of those who have contributed \$1 or more:

A. G. Diehl, P. A. Robinson, E. E. Vincent, Dr. Chas. V. Doty, A. J. Padghana, Prof. C. A. Gustlin, John A. McPadden, J. G. Quick, J. E. Liebig, Dr. R. A. Cushman, N. J. Warner, Judge Z. B. West, B. J. Chandler, J. H. Metzgar, Sam Jernigan, J. A. Turner, Mac O. Robbins, Vandermaast and Son, California Crate Company, Fred Ralphy, W. J. Wells, George E. Peters, Dr. F. P. Claycomb, George A. Barrows, Kay and Burbank, L. B. Babbitt, E. R. Curtis, M. Nisson.

OKLAHOMA TOWN HELD
BY MOB OF 2000 MEN

CUSHING, Okla., Sept. 23.—A mob of 2,000 men gathered from three counties early today was in control of Drumright, a few miles east of here this afternoon.

Rioting last night that grew out of city officials' alleged interference with a telephone operators' strike resulted in the mayor, chief of police and one policeman being driven out of town after many shots were fired. One woman was reported wounded.

PRINCE GREETED BY
ADMIRAL IN NORTH

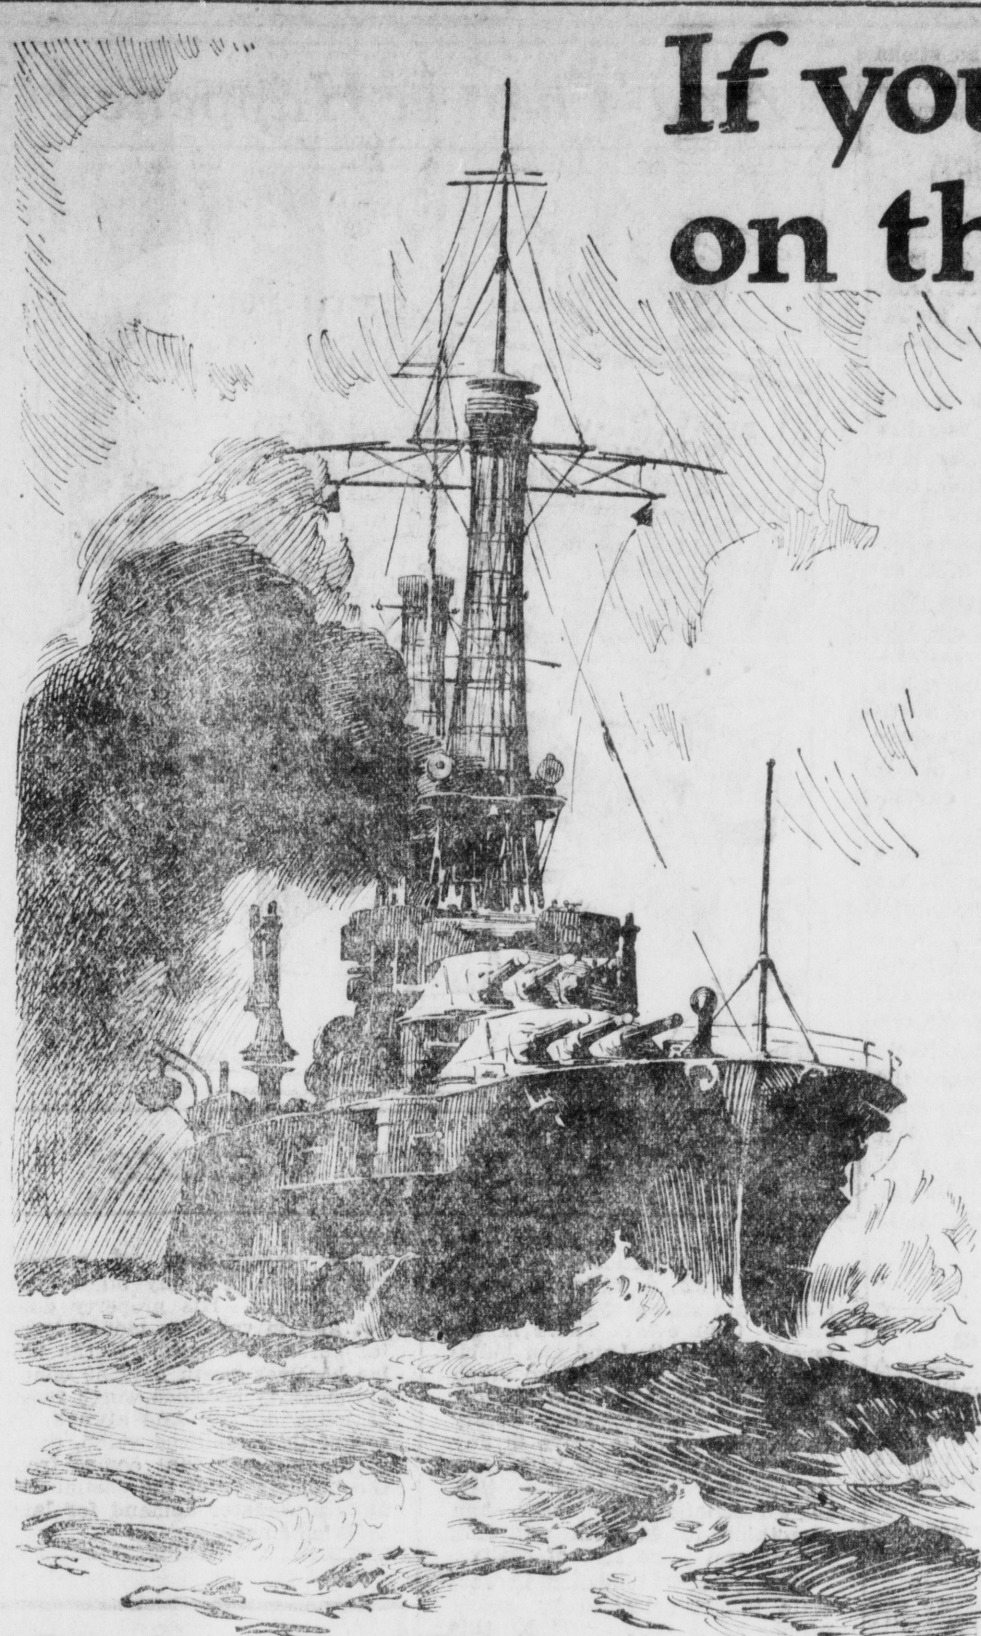

VANCOUVER, B. C., Sept. 23.—Guns boomed royal salutes and thousands of cheering spectators lined the streets here when the Prince of Wales, on tour of Canada, reached Vancouver and the Pacific Coast. Admiral Hugh Rodman, commander of the Pacific fleet, was the first to greet the prince as he stepped from the train.

ARE TO ATTEND
GATHERING AT
SANTA CRUZ

Delegates Are Selected to Represent the Local Encampment

The encampment of the Odd Fellows of this city will be represented at grand encampment of California at Santa Cruz starting October 14 by C. T. Cleland, J. W. Crawford, E. F. Waite and C. S. Hubbard, who have been elected delegates for the local encampment. The canton is not to attend in a body this year as it has done often in former years.

The Santa Cruz members are sparing no pains to make this year's meeting a memorable one. Last year, because of the fact that war conditions prevailed, all entertainment was set aside, and little but actual business transacted. This year, however, there will be no restrictions on the good time, and it is rumored there will be something doing every minute during the week.

Here is the official program: Tuesday, October 14—8 a. m., raising of colors at camp grounds; 9 a. m., grand encampment session, I. O. O. F. hall; 5 p. m., brigade formation and dress parade on Church street; 8 p. m., public reception at the Casino.

Wednesday, October 15—9 a. m., military council, I. O. O. F. hall; 1:30 p. m., competitive drills, tennis court, Casa del Ray; 8 p. m., degree work by Mt. Moriah encampment, No. 38, at I. O. O. F. hall.

Thursday, October 16—9 a. m., grand encampment session; 3 p. m., grand street parade, by all branches of the order.

Friday, October 17—9 a. m., grand encampment session; 3 p. m., conferring decoration and grand decoration of chivalry at tennis court; 5 p. m., lowering of colors; 8 p. m., awarding of prizes; 9 p. m., grand ball.

For Dysentery and Flux
R. E. Bower of Dixie, Brooks Co., Ga., has used Chamberlain's Colic and Diarrhoea Remedy for years and says he finds it to be one of the best family medicines of his knowledge, that it is the best medicine he ever saw for dysentery, flux and kindred diseases. When used for dysentery castor oil must also be given.—Adv.

A beginner's class in the FLETCHER MUSIC METHOD will be started about October 1. Call Pacific 1455 or see Miss Nell Isaacson, 422 W. H. Spurgeon Building.

CULINARY ART WILL
BE FAIR'S FEATURE

For the woman who can cook any article unusually well, it is going to be decidedly worth while for her to enter an exhibit in the culinary department of the Orange County Fair, to be held at Huntington Beach, Oct. 2, 3 and 4. This declaration is made by Miss Florence Larter, chairman of the department. Further, Miss Larter says:

Two of the milling companies in the county have most generously offered sacks of flour as prizes. The winner in the bread display will receive a sack of Perfection flour from the Olive Milling Company while the winner of the rolls will receive a 50-pound sack of Drifted Snow flour from the Sperry mills. Then Mr. C. C. Knight has offered to buy the best angel cake for \$2.00 and who wouldn't bake an angel cake for \$2.00 even if eggs are 60 cents a dozen? Some one else will pay a dollar for the best chocolate cake, and as for the pies—well, someone is sure to pay a perfectly outrageous price for a real home-made pie. By the way, it will be well to get your order in early if you really want to buy one of these products.

It will be no use to try to get out of exhibiting something, for there is sure to be a class for your specialty. If there isn't, you may rest assured that it will be made on the spot. The committee wants white bread, rolls, most any kind of cake cookies and all kinds of pies. It may be that things don't appeal to you but you're the kind of housewife who makes that beautiful clear jelly, or who cans those wonderful whole peaches or perhaps, more marvelous still you can vegetables and really keep them. Anyway if you bring what you have you won't be wrong.

Exhibits may be brought to the fair tents personally any time between September 28 and until 6:00 o'clock October 1, inclusive or they may be left at the real estate office of A. W. Fuller 402 North Sycamore, Santa Ana before noon October 1st. Any further particulars will be gladly furnished by the chairman, Miss Florence Larter, or any member of the committee.

Best of all bread—Luxury Bread—at the Dragon.

REVIVAL CAMPAIGN
PROVES SUCCESSFUL

The revival campaign is proceeding energetically at the Salvation Army hall, opposite the post office. Meetings are held nightly at 8 o'clock. Captain and Mrs. Giles, hailing from Australia, have thrillingly interesting stories to tell. The captain is but lately from France and has traveled in Germany and Russia extensively. He will be describing his experiences.

The children's campaign opens today and continues thereafter at 3:30 p. m. each school day.

Captain Giles has specialized in interesting and benefiting children. Chalk talks, graphophone records and an ice cream contest will be features of the children's meetings. The afternoon subjects should catch the eye and mind of the kiddies. Here they are: Tuesday, "Jack and the Japs;" Wednesday, "Funny Stories for Funny Folk;" (only funny children wanted at this meeting); Thursday, "Children of Foreign Lands, Australia, New Zealand, Africa, India, Russia, Lapland," etc.; Friday, "Mary, Mary Quiet Contrary, Bo-Peep, Jack Horner and Other Friends."

Church goers and non-church goers are alike welcome to these special meetings.

France has assumed the leadership of the world for manufacture of tin-sel fabrics, Lyons being the center of the industry.

That's the way people like "Big N" Feed. They like it because it makes them good poultry profits.

FOREIGN BONDS

An American financier who has been studying financial conditions abroad advises his fellow-countrymen to invest in foreign bonds.

Foreign exchange is admittedly in a bad way. The money of the allied nations has been steadily declining in value, as compared with American money. This makes business transactions difficult, and interferes with the payment of foreign obligations. The chief cause of this trouble is the fact that Europe's debt to the United States government and to individual Americans is already so great.

The expert mentions four conceivable ways of bringing international money standards back to normal. The first is the shipment of gold from Europe to America. But that is impossible, because Europe has not enough gold. The second is the shipment of goods. That is a natural process, but a very slow one. The third is the extension of "dollar credits." That is purely a banking proposition, which does not interest the ordinary American. Besides, Europe has already been given a vast amount of credit.

The fourth method, the purchase of foreign securities, is held to be the best way. This means mostly foreign war bonds. There is really much to be said for them, from the standpoint of profit. British five per cent bonds are selling at par, and French, Italian and Belgian bonds are selling well above their issue price, most of them giving a return of five to six per cent.

"By buying foreign securities," says this financier, "you are helping toward the improvement of the foreign exchanges which will mean a profit to you on your foreign investments and a profit on your domestic investments because through helping the foreign exchange situation to readjust itself you will help the development of your domestic industry and commerce."

Still, there is a big demand for investment money right here at home, with many profitable opportunities. Both profit and patriotism demand domestic rather than foreign investment.

"HEREDITY, PREJUDICE"

At a "felicity banquet" celebrating the ratification of the woman suffrage amendment by the Minnesota legislature, Mrs. Walter McNabb Miller of St. Louis, urged the voters to be "not to vote by heredity or prejudice."

Commenting on this wise advice, the St. Paul Pioneer Press remarks that "a certain amount of hereditary and prejudicial voting is unavoidable" because it seems inherent in human nature. At least, it is found to be a discouraging degree in the supposed lords of creation who until recently have monopolized the voting right.

"As a whole," admits the Pioneer Press, with a liberality rare in editorial males, "women are more free-minded than men. They see more of the human side and less of the policy side of politics. We may expect, as distinguished from the men, more of the heart and less of the pocketbook in their calculations."

The voting of men and women both will have a tendency to overcome apathy and ignorance on the part of both sexes.

DRINK FOR HORSES

Drinking troughs for horses are not so numerous as they used to be, in spite of the fact that Old Dobbin is still traveling city thoroughfares along with the throngs of motor-driven vehicles. An automobile can live without gasoline, although it won't work without the stuff. The horse, on the other hand will keep on working just as long as it can, no matter how neglected it is, and only stops when it drops exhausted or dead.

Last month the Massachusetts Society for the Prevention of Cruelty to Animals undertook to supply Boston horses with all the drinks they needed. A traveling water cart made daily trips along hot city streets and three water stations were opened for the benefit of suffering beasts.

It is reported, now that 68,000 horses took advantage of these particular opportunities to quench their thirst.

Here is a work of mercy and fairness which is neglected in too many places today. Even the small towns are inclined to grow careless about this matter. The horse may require more food and care than he is worth

in real work. Nevertheless, he sticks to his job faithfully, and as a living creature deserves decent treatment.

SPENDERS BLAMED

According to the New York Times, there are "four major lines of business activity which report great prosperity—jewelry, musical instruments, automobiles and tobacco—all non-essentials."

When non-essentials are in greater demand than essentials, as they seem to be in many communities, it is hard to resist the conviction that popular extravagance has about as much to do with high prices as has a spirit of profiteering. In fact, extravagance plainly encourages that spirit.

Not everybody has been extravagant, but the nation as a whole has been indulging in an orgy of thriftless indulgence and careless buying for which poor people and people formerly in "comfortable circumstances" are now paying.

This extravagance is far more noticeable in the East than it has been in the West, where the ordinary citizen of a city of Santa Ana's size cannot be properly charged with extravagance. Neither can our local merchants be shown up as profiteers. However, it seems more than likely that, taking the country over, the fact that money among many people has been far more plentiful the last year or two has resulted in a lot of buying regardless of price. Buying of that kind is an open invitation for price-raising.

Germany May Win

San Francisco Bulletin

A war is never ended until the peace is signed, and not always then. Much depends upon the nature of the peace, but still more upon the powers of recovery shown by the two sets of belligerents.

The victor may have been more demoralized by his victory than was the vanquished by his defeat.

"Another such victory and we are undone," said Pyrrhus after the battle of Asculum, and that antique epigram seems about the freshest thing that could be applied to a number of the allied nations at the present time.

They have won the war, but have lost so heavily in man power and resources they have far more difficulty in getting on their feet than has the leader of the enemy nations. But even more disastrous than the loss of men, money, factories and other buildings is their loss of morale. United in war; they are disunited in peace. They cannot agree among themselves, and in many cases they are doing virtually nothing to resume productive operations.

The burdens imposed upon Germany seemed crushing, but nothing can crush a nation which is prepared to get back to work on the morning after the disaster, and that is what Germany is doing. The victors who are wasting their victory in futile discussions may easily awake to find that what Germany lost on the battlefield she is winning, and more than winning, by work on the farm and in the factory. A year or two and she will be better off than a number of the victorious states along her border.

And while her workers are busy, her diplomats are not idle. Russia is nearer to Germany both in sympathy and geographically than she is to her former allies. A little while and Germany may renew the conquest which enabled her to destroy the effectiveness of Russia as an enemy in the early days of the war. Germany and a Germanized Russia may yet rule Europe. They will if the allies fail to agree among themselves.

Strength Shown

Pasadena Star-News

It needed not the personal presence and direct appeals of President Wilson to bring great numbers of Californians to the support of the Peace Treaty and League of Nations covenant. But his presence and his eloquent words unquestionably have strengthened the convictions of those who were for the treaty and covenant, and undoubtedly have convinced a good many who were wavering, in doubt.

Mr. Wilson has discussed the treaty and covenant from every angle and has given the people a fair, candid expounding of these documents and of the effect they will have upon the international relations of the United States. The President has given greatest attention to the controverted portions of the treaty and covenant. He has given an impression of earnestness, candor and unevasiveness that has pleased the people. Californians are overwhelmingly for the ratification of the treaty and covenant. The President's visit has shown the strength of pro-treaty and pro-covenant sentiment.

Hopeful Sign

San Bernardino Sun

News of the action of fire insurance companies in cancelling the surcharge which has added an extra 10 per cent to all premiums serves as a basis for the fond hope that perhaps, after all, we may have arrived at the point where prices at least begin to head back toward the pre-war basis, and we hasten to point out before the rush begins that there is a front seat reserved for the electric light and power companies, whose war surcharge is still with us.

Action on the part of insurance companies is an indication that some of the added expense of doing business during the war has been overcome, and we suspect it may be largely in the direction of efficiency. Wages have not been reduced, and so far as we have observed, materials and supplies cost as much as ever. But this is true: The thousands of trained men who went out of the insurance offices to join the colors are back again, and the inexperienced, inefficient employees who took their places have either been trained by this time, or are off the payroll so that business is "as usual," at least in this regard.

And Then It Happened

Real Estate Values

(From Riverside Press)

With commodities in general coming down a little in price, real estate seems to be going up faster than ever. There is no mystery about it. Land and buildings have not advanced so much during the war and since as food, clothing, furniture, etc. Realty is always slower to move in any direction than are the more easily handled necessities of life. Rent restrictions, too, have had something to do with retarding the natural price rise of realty.

The present tendency in real estate is characterized by many people as a "boom." If by this word it is meant that the movement is temporary, and destined to suffer a reaction, it is probably a mistaken view. It is more likely that real estate is merely finding its proper price level, in harmony with the new, permanent system of higher prices that economists have foretold.

According to this explanation, most of the necessities of life will come down somewhat, though not a great deal, and real estate will continue rising until the two kinds of property meet again on a common level, both having made and kept about the same percentage of gain over pre-war values.

In land values, better than in any other form of wealth, perhaps, can be traced the natural increase in price due to the increase of the gold supply and the token money and credit based on it.

Increase of population, to be sure, has much to do with it. But with that allowed for, it is easy to trace, in general land values, taking city and country together, the appreciation of land keeping pace with the depreciation of currency.

The man who owns real estate, particularly if his holdings consist of various parcels of different kinds and locations, is more

neatly independent of money-fluctuations than any other kind of capitalist. His property does not lose in value as money loses its purchasing power. If the dollar becomes worth only 50 cents, his property becomes worth twice as many dollars. And always, on top of this stabilized value, there is the increase that comes from the building up of the community and the greater demand for land and buildings.

Resigns As Bible Class Leader; Be New Era Speaker

In order that he may accept an appointment as Southern California head of the church and social department of the New Era movement of the Presbyterian Church, Judge W. H. Thomas has resigned as leader of the Bible Class of the First Presbyterian Sunday school, the largest Sunday school class in Santa Ana.

Judge Thomas, now on the Appellate bench, has taught the class for the last ten years.

The new work that he is entering upon will make it necessary for him to be gone nearly every Sunday, as it is expected that within the next year he will make at least one address in every one of the 100 or more churches in the Presbytery. He is to commence his duties under his appointment, on October 1.

SHIPS AT PEDRO READY FOR BATTLE PRACTICE

Word has been received here by Navy Recruiting Officer Herbert Wilbur that the New Mexico, Mississippi and Idaho are anchored at San Pedro in preparation for target and battle practice and maneuvers in the Pacific. Any young man enlisting in the service who wants to witness the maneuvers may go on any one of the ships, choice being left to the individual.

This is considered an excellent opportunity for young men who have never seen battlefronts or the flash of big guns. Battle and target practice will be held in the near future on the largest scale ever held in the Pacific.

Word has been received from many of the Southern California boys who have enlisted within the past month and are now with the fleet. All speak very highly of the service and are waiting anxiously to take part in the big battle practice.

Newport Hotel, on ocean front.

Boy, Aged 9, Earns \$109.90 Driving Team During Summer

A new mark has been set for boys of 9 years of age.

If there is another boy of 9 years who during the past summer has earned more money than this boy, let him tell the Register about it.

Up to the present the record is held by Thomas Grafton, son of Mr. and Mrs. E. P. Grafton of El Toro, and El Toro is where the boy earned his money. He earned it driving a team of horses, and, what is more, he took care of his own team.

How much did he earn?

This industrious lad earned exactly \$109.90 between the time school closed in June and the time it took up in September.

Short Visit

Mrs. Tarver Montgomery is enjoying a short visit from her nephew, Hobart Smith, and his friend, Wilbur Rockwell, who has recently received his discharge following service in France. Mr. Smith has been at the Yellowstone National Park during the summer. After their visit here they will go to Los Angeles for a week and from there to Imperial Valley.

Quiet Wedding

Miss Mary E. Smith and William E. Johnson were quietly married Saturday morning at 10 o'clock at the home of Rev. John Oliver.

The father of the bride, F. J. Smith, and the groom's parents, Mr. and Mrs. H. E. Johnson, attended the couple. Immediately following the ceremony they left for San Diego, where they remained over the week-end, returning in time to continue work Monday morning. Mrs. Johnson is stenographer for her father in the Consolidated Railroad office and Mr. Johnson is engaged with his father in the truck business.

For the present they will reside at 292 South Sycamore street.

For Organists

Mrs. Albin J. Padgham and Perry Richards were guests last evening of the members of the choir of the Church of the Messiah at the home of Mr. and Mrs. C. R. Sumner.

Mrs. Padgham had been organist at the church for some time and upon her resignation, Mr. Richards was engaged to fill the vacancy.

Mrs. Sumner used large baskets of gorgeous dahlias from her own gardens in the decoration of her home and at the close of the progressive games the two honor guests tied for high score and the prizes were divided between them.

Light refreshments were served to twenty-six guests.

Washington P. T. A.

Mrs. Charles Mitchell, president of the Washington Parent-Teacher Association, has called a meeting for tomorrow afternoon to begin promptly at 3 o'clock. It is the first meeting of the year and is to be a social afternoon as a reception to the teachers. All the parents who find it possible are asked to attend.

First M. E. Aid Meeting

The south section of the M. E. Aid will meet at 2 p. m. Thursday with Mrs. C. E. Kellogg at 433 South Broadway.

October Wedding

Invitations are out for the marriage of Miss Adeline Hill, daughter of Mr. and Mrs. Thomas L. Hill, to John Goodfellow Fleming. The marriage will take place at the First Presbyterian church on Wednesday evening, October eighth, at eight o'clock.

About P. T. A.'s

With the opening of the schools, the Parent-Teacher associations have sprung into activity again, ready for a hard winter of work after a refreshing summer vacation.

The executive board of the city federation met yesterday in the intermediate school to lay plans for the entertainment to be given the district Mothers Congress and P. T. A. on October 11 at the intermediate school, and to discuss the work laid out for the coming year. The president, Mrs. John Clarkson, presided. The executive board is composed of the president of each association and officers of the Federation.

The High School P. T. A., under the leadership of Mrs. H. M. Sammis, is to conduct a big membership drive immediately following the first meeting which will be held October second. Every person who has the welfare of the young people at heart should be a member of this organization and especially mothers of pupils in the high school. The P. T. A. carries on a great work and it is through this association that the mothers, to a large extent, are able to understand school affairs and to develop "team" work and a comradeship among themselves and teachers.

This first meeting will also be large.

LEONORA TOMPKINS

Experienced teacher of artistic piano playing. Post-graduate, 2 years in New York, 3 years in Chicago. High school credits given. Charges reasonable. Studio 429 S. Sycamore. Phone 1274-M.

NOTICE TO MY PATRONS

Those holding contracts on my studio from No. 150 to 185, kindly call at studio to make arrangements for sitting or to have time limit extended.

ly a social affair and reception to the teachers, though some very important and interesting questions are to be discussed and so that each might receive the benefits from the discussions a large attendance is desired.

The executive board of the high school P. T. A. includes the president, Mrs. H. M. Sammis; 1st vice-president, Mrs. C. H. Baird; 2nd vice-president, Mrs. Charles Caruthers; Secretary, Miss Nell Rensberg; treasurer, and Mrs. Edmund Snow.

County Board Meeting

The executive board of the Orange County Federation of Women's clubs met yesterday afternoon at the home of Mrs. J. N. Bartholomew. Mrs. C. F. Crose, County President, presided. Of the thirteen clubs in the county federation, the nine following were yesterday represented by their presidents: Orange Woman's Club, East Newport Eboli, Santa Ana Eboli, Anaheim Eboli, Garden Grove Tuesday Afternoon Club, Huntington Beach Woman's Club, Fullerton Woman's Club, Santa Ana Woman's Club and Buena Park Woman's Club.

Four county officers, two state chairmen, five county chairmen of departments and a district chairman were present, making it a more than usually representative board meeting. Mrs. Cheney of San Diego, State Art Chairman, was present, and gave a brief outline of the department's plans for the coming year.

The Federation voted to join the Women's Legislative Council.

Most of the meeting was devoted to plans for the county convention to be held at Huntington Beach on October 18th.

PERSONALS

Mr. and Mrs. A. B. Rousseau, who are making an extensive tour, were traveling in Canada last week, according to a card from Mr. Rousseau.

Mr. and Mrs. G. Mileage Montgomery and little daughter visited friends in Santa Ana Saturday.

P. C. Clarkson, former editor of the "Blade," was in town last Saturday.

William Ritzer spent the week-end in town visiting friends. He returned to Long Beach Sunday evening.

Mr. and Mrs. W. L. Duggan and Miss Dorothy Duggan returned from their northern motor trip Sunday.

Mr. and Mrs. Charles Mitchell, Mrs. Frank Cannon, Mrs. Ida Turner and Mrs. Harvey spent today in Los Angeles.

Misses Edna Copeland and Iva Webster, who are attending the Teachers' College in Los Angeles, spent the week-end at their homes here.

Dr. H. N. Brothers drove to Los Angeles today on business.

Mrs. John Harvey and her niece, Miss Bernice Yeo, went to Los Angeles today.

Miss Fann's Smart leaves tomorrow for Ray, Ariz., where she will teach in the kindergarten school.

Mrs. Edith Grensted Rochester was in town on business yesterday. Fred Newcomb will leave tomorrow to take up his work as traveling salesman for the firm of Cohn, Goldwater & Co. of Los Angeles. He will travel far north as Oakland and San Francisco. His family will remain here. Newcomb was with the Turner Shoe Company for six years and with Winslow & Beissel for more than a year.

Mrs. C. M. Boyer and Mrs. A. F. Zaiser were passengers to Los Angeles this morning.

Mrs. O. M. Robbins is spending the week at Keen Camp with Mr. and Mrs. Edward P. Cheverton and their small son, Milton, who are enjoying a vacation there.

MARRIAGE LICENSES

IN SANTA ANA

Alvin Arthur Schryer, 22, of Los Angeles, and Ruby Maid Shoemaker, 21, of Olive.

Paul A. Wiseley, 21, of Fort MacArthur, and Ruby Meryl Stone, 21, of Long Beach.

William O. Nixon, 21, and Jewel A. Cole, 18, both of El Monte.

Harry H. Caldwell, 21, of Arlington, Cal., and Hattie Pauline Luchau, 23, of Orange.

ISSUED IN RIVERSIDE

George E. McClellan, 29, Santa Ana, and Eva May Payne, 26, Los Angeles.

DEATHS

McVAY—At the Santa Ana hospital, September 21, 1919, Harry S. McVay, aged 21 years.

Funeral services will be held Friday, Sept. 26, at 2 p. m., from Smith & Tutill's chapel.

DIZZY—WRECKED HIS AUTOMOBILE

"Two years ago my stomach trouble got so bad that I was almost constantly filled with gas. This made me very dizzy at times. Last Fall I was almost overcome by one of these dizzy spells while driving my car, and ran it into a telephone pole, badly wrecking the car. A friend recommended Mayr's Wonderful Remedy for my trouble. Since taking the first dose I have steadily improved, and feel better now than ever in my life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At drugists everywhere.

City and County Briefs

Miss Kate Owen, stenographer at the city clerk's office, is home from a two weeks' vacation. The first week was passed in San Francisco, she and her sister, Mrs. M. Fahey, going to San Francisco to attend the wedding of Edward Fahey, who was married on September 10th to Miss Vera Kelly of that city. Mr. Fahey is drug clerk in one of the Owl drug stores in Los Angeles, and he and his bride will make their home there. Last week Miss Owen and her mother visited in Los Angeles and other points in Southern California.

The Anaheim carnival committee has decided not to have a queen for the big event and has changed the date from Saturday, October 4th, to Tuesday, October 7th.

M. Richardson, an employee of the Clark Oil Company was brought to the Anaheim hospital yesterday suffering from a badly fractured leg, caused by a pipe dropping on it.

Ed Roberts, stock buyer for the Anaheim Beef and Provision Co., has returned home from Utah and Nevada, where he went to purchase stock for the concern he represents. He purchased several carloads of sheep and cattle. He visited a sheep ranch in Nevada which is ninety-five miles from a railroad and purchased hundreds of sheep which will be driven overland from the railroad and shipped to Anaheim.

The Associated Chambers of Commerce will meet at Placentia tomorrow evening. The meeting will be at the woman's club house and the ladies will serve the meal. Women are invited to attend the meeting. Dinner will be served at 7:30 o'clock.

Rev. Paul E. Wright, recently returned from Y. M. C. A. work in France, is to talk tonight following a supper given by the Men's Bible class of the First Christian church. He is to detail some of his experiences and observations overseas.

Of interest to fire insurance agents and their patrons is the announcement that the surcharge on fire insurance amounting to an additional premium of 10 per cent will be discontinued on all policies written beginning October 1. Early in the war period, when prices of all kinds were mounting, fire insurance policies joined in the procession and 10 per cent was added to the premium charged.

Carpenter tools belonging to Morgan Reeves were stolen Sunday night from a chest at a building job he is engaged on at the corner of C and seventeenth streets. The tools are valuable and the thief about cleaned out the chest.

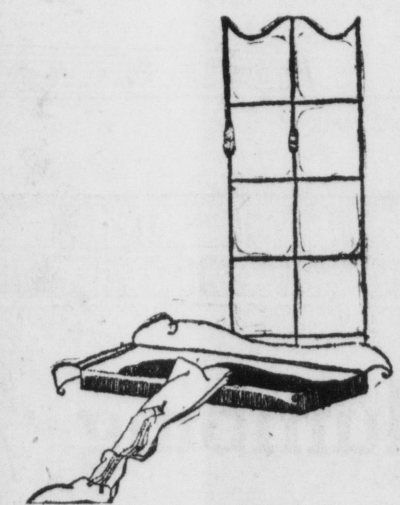

City Motorcop Stewart is limping a little today and the coat of his uniform is laid up for repairs as the result of his motorbike skidding on the wet pavement last night and pitching Stewart headlong to the pavement. The accident happened on West Fifth street while he and County Motorcop Ballard were returning to the city from an outside point. The heavy fog coming in about 10 o'clock made the pavement slippery.

CARDINAL MERCER IS GUEST AT WASHINGTON

WASHINGTON, Sept. 23.—Cardinal Mercer, the distinguished Belgian prelate, arrived in Washington late yesterday, coming by trolley from Annapolis, where earlier in the day he spoke at the United States Naval Academy. He was accompanied by Cardinal Gibbons. Cardinal Mercer was the guest at the Sulpician seminary of the Catholic University of Dr. Edward Dyer, president of the seminary.

Just arrived—our glace fruit, fresh from the factory. Dragon.

OPENING HOMES TO STRANGERS SUGGESTED

The housing situation in Santa Ana has reached that point where it is necessary for private residence owners to open their homes to strangers, where they are situated to do so.

Today Secretary Metzgar of the Chamber of Commerce issues an appeal to such owners to open their homes to strangers. Those who can conveniently arrange light house-keeping rooms or who will rent half of their home, giving kitchen accommodations, are urged to do so.

Such accommodations are necessary to the advance of Santa Ana. People are commencing to arrive for the winter. The number is not as large as it will be later. The outlook for the future is gloomy, so far as taking care of those who want to pass the winter here is concerned.

They probably will be content to put up with most any arrangement that will provide them shelter. There are several families who are residing at Newport and Balboa waiting opportunity to secure accommodations here. The heads of three families stopping temporarily at the beach were at the Chamber of Commerce rooms this morning appealing for help. They are anxious to get their families located in Santa Ana.

Local residents having single rooms or who will accommodate a man and wife with housekeeping privileges are requested to send their names to Mr. Metzgar, so that he may arrange a reference list.

"New comers are arriving every day and appealing for accommodations," declared Metzgar. "The situation is getting serious and Santa Ana is going to lose population by not arranging to provide housing needed. The three men in my office this morning are prospective permanent residents and want to stay here while investigating the section."

"I believe there are many homes in this city where accommodations might be had if the owners would open them to strangers. It is a patriotic duty that such people can perform. Santa Ana is their home—and they should assist in entertaining strangers within her gates."

There are many summer cottages at Newport, East Newport and Balboa that are available to winter residents who want to stay near Santa Ana, but it is not as convenient as most of them would like to have it. Some are "getting by" in this way and it may be that as the winter advances others will find this a source of relief for the time.

News from Orange County Towns

BUENA PARK NEWS

BUENA PARK, Sept. 23.—Thrilling stories of experiences in a typhoon and an illustrated lecture on "Revolutionary Siberia and Present Conditions" will be told Friday evening at the school hall, the speaker being Chaplain A. F. Torrance, who has just returned from overseas.

Mr. and Mrs. A. S. Johnston of Fullerton were calling on old-time friends in the Park Saturday evening.

The Camp Fire Girls held a jolly council fire at the home of Mrs. M. S. Berkey Friday evening. Each girl took part in the ceremony. Those enjoying the affair were the Misses Bertha Robinson, Doris Williams, Mildred Bacon, Florence Schofield, Rhoda McCloud, Bertha Mamie and Wilhelmina Sharp, Florence Robinson and Dorothy Mayhew.

The Ladies Aid of the Congregational church will meet Thursday afternoon at the home of Mrs. Bixby. The election of officers was held at the last meeting. Mrs. Hagarty was elected president; Mrs. Bixby, vice president; Mrs. Duncan, secretary; Mrs. Little, treasurer.

Mrs. C. E. Ritter, who has been quite ill at the Clara Barton hospital, Los Angeles, is reported as much improved and able to be moved to the home of her mother in Los Angeles.

Miss Juanita Simpson has gone to Strawberry Flats for a short vacation. She will be the guest of Mrs. Gerald McComber.

The Parent-Teacher Association will give a reception for the teachers this evening at the school hall. P. T. A. members and students will contribute their services to make the reception and program a memorable one.

Mr. and Mrs. Cummings and children of Montebello were dinner guests of Mr. and Mrs. J. H. Macklin Sunday.

Among those who motored to Los Angeles Saturday to hear President Wilson were Rev. and Mrs. Knight, Mr. and Mrs. Hagarty, Mrs. Martin, Mrs. Smothers and Mr. and Mrs. Roberson.

GARDEN GROVE BRIEFS

GARDEN GROVE, Sept. 23.—Mrs. C. G. Oertley gave a birthday party Wednesday afternoon for three of her little grandsons whose birthdays are within a few days of each other. Leroy Allen, George Oertley, Jr., John Oertley and the Roy Beardsley twins. The afternoon was a most enjoyable one for the little honorees and friends, about twenty in number, and best of all was a daintily prepared table with a beautiful birthday cake and gleaming wax tapers to commemorate the birth of each child. Mrs. Oertley was assisted by her daughter, Mrs. J. G. Allen.

Mr. and Mrs. F. E. Anderson left today for a six weeks' visit with relatives in Minnesota and Wisconsin.

Mrs. E. E. Spain was an over-Sunday guest at the home of her son, George Spain, in Los Angeles.

Jack Jentges returned Thursday from what was to have been a three weeks' deer hunting trip in the mountains near Bishop. He found it was too strenuous for him and left the party, which is composed of Harry Jentges, A. L. Leighton of Artesia and W. Rusk of Buena Park, who expect to return this week.

Miss Bessie Spain went to Fresno Thursday to spend a few weeks at the home of her sister, Mrs. Castelman.

Miss Edna B. Riggs, who has been a guest at the Reyburn home, left Friday for her home in Los Angeles. She was accompanied by Mr. and Mrs. Reyburn for an over-Sunday visit.

A number of Garden Grove people went to Los Angeles Saturday to see our President.

Mr. and Mrs. A. D. Kinne and daughter, Little Miss Eleanor Kinne, spent the week-end at the home of Mrs. Kinne's parents, Mr. and Mrs. J. D. Price.

In Praise of Chamberlain's Colic and Diarrhoea Remedy

"I cannot speak too highly in praise of Chamberlain's Colic and Diarrhoea Remedy," writes Mrs. Carrie Fuser, Zanesville, Ohio. "It has been used by myself and husband for cholera morbus and other forms of bowel trouble for the past fifteen years. It never fails to give relief."—Adv.

RURAL CARRIERS MEET DAYTON, O., Sept. 23.—The National Association of Rural Mail Carriers opened a four-day meeting here today with delegates present from all over the United States.

Legislation, increased wages and possible affiliation with the American Federation of Labor will be discussed. Speakers will include heads of the various postal departments.

NOTICE—Women wanted for canner work. Can make good wages. Apply ready for work. California Packing Corporation, East First St., at railroad.

HUNTINGTON BEACH

HUNTINGTON BEACH, Sept. 23.—Sunday afternoon there was quite a little curiosity aroused when two Los Angeles newspaper aeroplanes arrived on the beach just east of the municipal pier. Many did not know what the mission of the two planes was, but it shortly developed that several of our city girls were to have free rides for services performed in obtaining subscribers for the paper.

Miss Murdie Reed, Miss Hazel Horn, and Miss May Wolworth were each given a ten-minute ride over the city and surrounding country. C. A. Peek of the garage here and unknown man from Anaheim also took rides. The planes developed engine trouble from the salt water on the beach and were forced to alight in the beet field near Sam Gislser's and there remained overnight, resuming their flight about noon Monday.

The adjourned session of the fourth quarterly conference of the M. E. church will be held Friday evening at 8 p. m., when the work of the past year will be closed up preparatory for the annual conference held at Santa Barbara the first week in October.

Judge W. D. Seely was elected lay delegate and Mrs. George M. Gunn alternate, to attend the annual conference from this charge.

Dr. Maude Wilde, president of the Mothers' Educational Centre of Los Angeles, will have charge of the Baby Show, one of the features of the County Fair. This show will be conducted through the entire fair and it is one that will create a good deal of interest, as it did last year. Mothers, now is the time to have your baby examined and obtain wholesome advice as to how to care for babies. Bring in the babies.

Col. True of Los Angeles, together with ex-mayor Woodman and C. H. Parsons will give short addresses at the States picnic during the last day of the fair, October 4. There will also be music at that time furnished by Ralph C. Turner, who will also have the Shiloh Drum Corps of Los Angeles as one of the features during the fair.

Mr. and Mrs. C. H. Howard of San Dimas were in the city Monday looking after business affairs.

According to correspondence from O. H. Maryatt, commander of the Southern California Veterans' Association, the G. A. R. of Orange county are planning on holding their annual picnic at Huntington Beach on October 4, during the fair. Huntington Beach will be glad to welcome them and Judge W. D. Seely is planning on giving them a royal reception.

Mrs. Friend will move to Long Beach Saturday.

Joel Proctor has moved to Fourteenth and Walnut.

Rev. E. J. Harlow will erect a new garage at 302 Eleventh street.

Jacob Mueller of Orange has painted and papered his house at 627 Tenth street.

Work has already begun on preparing the ground for the large tents for the fair, which will be erected this week.

Wednesday the "Boosters" will make their trip around the county in the interests of the County Fair, October 2-4.

ORANGE PERSONALS AND NEWS NOTES

ORANGE, Sept. 23.—Funeral services for Mrs. John Wheaton, aged 79, who died at her home on North Pine street, Friday evening, were held from the Ellis and Clark chapel yesterday. Mrs. Wheaton leaves a widow, John Wheaton, and nine children. One of her sons died at Camp Lewis last year.

Services were conducted by the Latter Day Saints, Interment at Fairhaven cemetery. Four sons acted as pall bearers.

Miss Marie Beymer of Riverside, sister of Lester Beymer of El Modena, is reported to be no better. Miss Beymer was taken ill while there visiting her brother last week and was taken to her home in Riverside. She is now in such a serious condition that it was thought best to take her to a sanitarium where every effort will be made to bring about her recovery.

Alfred Huhn and J. E. Schuessler left yesterday for the east on a combined business and pleasure trip. They will be gone about two months, making stops at St. Louis, Chicago, and Grand Rapids.

Rev. M. L. Pearson went to Carruthers, Cal., yesterday, to bring Mrs. Pearson home. Mrs. Pearson has been visiting her sons, Arthur and Wendell, who have bought a ranch near Carruthers, since the early part of the summer.

Mr. and Mrs. Francis Crawford of El Modena have returned from Portland, Ore., where they were called by the death of Miss Lillian Crawford.

ARMOUR'S EMPLOYEES PICNIC AT LAGUNA

LAGUNA BEACH, Sept. 22.—Los Angeles, San Diego and Bakersfield branches of Armour & Co. closed shop and all their employees with the families, over two hundred strong, came to Laguna for a big "happy family picnic" Saturday.

Under the direction of H. R. Miller, manager, George Lutz, assistant manager, of Los Angeles; J. H. Garrison, manager, San Diego; S. O. Wicklin, Bakersfield manager, and A. H. Dake, district manager, Armour Grain Company, all had a joyous and free-from-care day.

A good program of sports was enjoyed by spectators and participants. A ball game was called at 2:30 between the men working inside house and the salesmen; score, inside, 11; salesmen, 10. The ball game was followed by races and a waltzing contest. The free-for-all foot race was won by Mr. A. Nordone. The prize was an order for a hat. The "special race" of 100 yards was won by Mr. Ham. Three-legged race was won by Mr. Stone of San Diego and Mr. Nordone of Los Angeles; prize, "Ever-sharp" pencil. They will take turns using it, they say. Potato race was won by M. C. Seibert; prize, piece of Star bacon. The prize waltz was won by Mrs. Ida Carona and Mr. Lee Carrisosa; prizes, pair silk hose and a necktie. The pavilion was open to all who cared to dance.

NOTICE—Women wanted for canner work. Can make good wages. Apply ready for work. California Packing Corporation, East First St., at railroad.

Livesey's vulcanizing and retreading is guaranteed.

CUTICURA HEALS BLISTERS ON FACE

Very Disfiguring. Caused Swelling and Itching. Could Not Sleep.

"About four weeks after having a very bad case of poison ivy, my face broke out in water blisters about the size of a pinhead. They were very disfiguring as they caused swelling and itching, and I could not sleep at all. My face would perspire so that water ran in a stream, and I had to have a towel on my neck.

"I was treated but got no relief. Then I was told to use Cuticura Soap and Ointment. In about a week I could see a change, and in three weeks I was completely healed." (Signed) Mrs. C. Anderson, Enid, Mont., March 21, 1919.

Rely on Cuticura Soap, Ointment and Talcum to care for your skin.

Soap 25c, Ointment 25c and 50c, Talcum 25c. Sold throughout the world. For sample each free address: "Cuticura Laboratories, Dept. H, Malden, Mass."

Cuticura Soap shaves without mug.

NEWS OF LAGUNA BEACH

LAGUNA BEACH, Sept. 23.—Miss Emma Waldvogel and Miss Helen Price of Pasadena spent two days with Mrs. Robert Evans. Miss Waldvogel, formerly of Zurich, Switzerland, is well known in artistic circles for her designing and embroidery. She has just returned from Camp Lewis, where she served for several months with the Reconstruction Department, teaching the wounded and disabled soldiers designing, wood carving, weaving, basketry, tray making, etc. She found the boys eager to learn, and has received many grateful letters from them since coming home.

Miss Pauline Jahraus has gone to Los Angeles to attend Normal. She is staying temporarily with Dr. and Mrs. W. G. Terry.

Miss Helena Dunlap has left here after a visit of several days with her sister, Miss Lillian Dunlap, who is occupying Mrs. Norton's cottage on the front, above the hotel.

Mrs. Dore Smith, Master James and Miss Janet Smith have returned to their home above Fisherman's cove, after a three months' visit in Pasadena.

Joe Handy and family have returned to their ranch at Villa Park but expect to spend weekends here. Mr. Handy has spent the summer fishing. He has a power boat and has made some large catches. He lately spent several days at Catalina fishing. He will take his boat, the "Echo," to Balboa bay for the winter.

Mr. and Mrs. Cadwallader of Pasadena are occupying the Webster cottage at Arch Beach.

Misses Florence and Mabel Alvarez entertained in Los Angeles on Tuesday with an informal birthday party in honor of Miss Pauline Jahraus.

Mrs. Mary Oliver, who paints the beautiful roses exhibited at the art gallery, entertained at luncheon on Thursday Miss Laura Van Poppleman. Miss Van Poppleman is an assistant instructor at the Chicago Art Institute, and also has a class four days a week at the Chicago University. She follows the modern school of painting.

Mrs. Alexander and daughter, with a party of friends are enjoying a stay at Dr. King's Laguna Heights cottage.

Miss Mary Watrous returned this week from a month spent in Riverside with Mrs. H. E. Norton. Mrs. Norton and the Misses Norton expect to spend October here.

Mr. and Mrs. Weibrecht have as their guests for the week-end Miss Margaret Cummings of Orange, Mrs. Lynch of Los Angeles and Mr. H. H. Hewitt.

Three of Laguna's well known artists, Miss Emily White, Conway Griffith and Frank Cuprien, were the guests at a dinner given by Mr. and Mrs. Thaddeus Lowe. Mr. Cuprien, who is a musician as well as an artist, played some of his own compositions during the evening. Mr. Griffith is planning a trip to the desert this fall with Robert Evans, where he will explore, and paint the Old Woman and Turtle mountains. Miss White has spent the summer painting in the San Bernardino mountains and has only just returned to Laguna.

Residents of Laguna Beach are re-

pairing and painting their roofs in preparation for the winter rains, towards the early coming of which everyone is hopefully looking, many citizens went dry this year, for the first time, owing to the extreme dryness of the past two years.

Even Laguna is not exempt from the epidemic of strikes. The carpenters who have been working on the motion picture "sets" at the Blow-Hole point, walked out Monday afternoon. The "sets" on which they have been working, consist of several buildings on the beach and a lighthouse high up on the point, which adds a most picturesque touch to the landscape. It is said that Mme. Alla Nazimova will play there when it is finished.

Mr. and Mrs. Francis Moulton have left after a vacation spent in fishing and bathing. They expect to return for the opening of the quail season.

Mr. and Mrs. P. E. Kingman returned to Los Angeles Sunday after two weeks spent in their cottage on the boulevard above the hotel. Mrs. Streeter of Riverside, who has been down for a week, also departed. Mrs. Streeter had as her guests Mrs. Moody and two children, Mildred and Carl.

Sessue Hayakawa and a company from the Brunton Studios are working on a motion picture at Aliso canyon.

NILSON TRACTORS

A Small Tractor For Big Work

Built in two models, Senior, and Junior—having 4000 and 3000 lbs. draw-bar pull. We estimate the Nilson to be the best Wheel Tractor on the market for open farm work, and we invite comparison. A bear to pull, light in weight, ample traction, no packing of the soil, easy to operate, but best of all low cost of maintenance.

There are many of these tractors in operation throughout Southern California and the work that they are doing is a credit to this meritable machine. We urge you to drop us a line for a catalogue, also visit some of the owners of this machine, and see for yourself the work that the Nilson is doing—be your own judge.

AGENCY

We have some attractive agency propositions to offer in some districts to live wires who are desirous of making money. Liberal discounts. You had better see us at an early date, immediate deliveries.

HIGH GRADE USED AUTOS

The largest and most complete line of HIGH GRADE USED AUTOS to be found in the West. BUICKS, DODGES, HUMPHRIES, OVERLANDS, MAXWELLS, SAXONS, PEERLESS, PIERCE ARROW, CHANDLER, and many others too numerous to mention in this ad. The above stock consists of Roadsters, Tourings, Sedans, Coupes, and Race-about models—the best that the market affords. Let us show you one of these late model cars. We will extend reasonable terms if necessary.

Batteries For All Makes of Cars

Having recently installed a Battery Department, we are in a position to furnish you with a battery for any make of car, at a saving of nearly 50 per cent yearly. Drop in and let us explain our guaranteed contract plan.

Buy A Paint Made Especially To Meet The Requirements Of This Climate

"High Grade" paint, made by the Long Beach Paint and Paper Company, costs no more per gallon than ordinary paint, but it takes fewer gallons for a given number of square yards and it lasts longer.

These are facts based on many years of experience in making paint to stand up under the weather conditions peculiar to Southern California. If you ever used this paint you know these things are facts. If you never have used it it is time now to "get wise."

PLAYERS MERITS OUTLOOK FAVORS DEMPSEY WANTS FOUND HARD ANGELS TO WIN ACTION, SEEKS TO WEIGH PENNANT REAL FIGHT

Eddie Collins Lone Member of Inner Defense Who Has No Rival

By HENRY FARRELL
(United Press Staff Correspondent)
NEW YORK, Sept. 23.—Insight of the proverbial "Philadelphia lawyer" is needed in weighing the merits of the Cincinnati and White Sox infielders.

Eddie Collins, that star of stars, is the lone member of the two inner defenses who stands head and shoulders above his rival. In the other three positions, technique, temperament and all the so called fine points of the game have to be thrown in the balance to pick the better man.

After consideration of all their virtues and shortcomings, the needle seems to point to the Sox as having a shade the better on infield class.

Heine Groh, the Red captain and star third baseman is the lone Morante who can be held up as a superior on his sack. By varying margins the other decisions go to "Chick" Gandil and Swede Rieseberg.

First base figures show a neck and neck decision between Jake Daubert and Gandil. The Sox player with a batting average of .298 has a lead of 24 points over his veteran rival. He leads him also in stolen bases, 13 to 11. But in run scoring Daubert leads with 75 to his credit, while "Chick" has crossed the plate only 52 times. Daubert is first in number of hits with 140 against 121 for his rival. Their fielding is about on the same par. But history proves that Gandil is a more dependable player in a pinch.

One Eddie Collins. Comparisons of second basemen are superfluous. Rath cannot even hope to attain the plane of excellence that characterizes the all round work of Eddie Collins. The Red second sacker is a good ball player and he is unfortunate in the circumstances which require a cold analysis of figures involving him and one of the greatest players of all time. There is but one "E. Collins, 2 b."

In hitting and fielding there is little to choose between "Swede" Rieseberg and Larry Kopf at shortstop. Both are far from being great ball players. The Cincinnati player has a 19 point advantage over the "Swede" in batting; has stolen one more base, scored four more runs, and made 36 more hits. Rieseberg has been coming strong in the closing weeks of the pennant drive and has been outplaying his Red rival in the field. As a world's series starter the Sox player outpoints Kopf through his fighting qualities. Rieseberg is high strung and nervous, but he proved his courage in the last world series play when he went in to bat in a pinch after being benched just before the series and delivered a hit. He seems to have found himself dating from that period. He has proved that he can carry weight and Kopf is an uncertain quantity in a "crocial" series.

Twins In Corner. Heine Groh and Buck Weaver are almost twins in ability in the far corner. Both rank among the game's best players. Groh is a bit more powerful on the attack with a batting average of .307 against .295 for Weaver. In base running they are on the same level. Weaver has scored four more runs and 18 more hits than the Little Moran captain. Both are sensational fielders. Groh is the balance wheel of the Red defense and occupies the niche that Collins holds in the Sox infield. He may be a trifle more reliable than Weaver in emergencies. If a shade is to be accorded either man, it belongs to Groh. Taken as a whole the White Sox infield outbats the Reds .292 to .270. Gleason's men are better on the bases with 82 thefts against 66 for the Ohioans. In run scoring the Moran players have the better mark with 270 runs against 263.

CHANCE SAYS WILLARD CAN DEFEAT DEMPSEY

LOS ANGELES, Cal., Sept. 23.—Frank Chance, the "Peerless Leader," thinks Jess Willard a better man than Jack Dempsey.

Not only did he declare here today that Willard was not so badly whipped at Toledo as many think, but added that he would bet on Willard if Jess could be matched with Dempsey again.

Tigers Close to the Leaders But Must Go Against Bee Assaults

SAN FRANCISCO, Sept. 23.—With the Angels in the lead of Vernon by a game and a half, the next to the last week's series started today in the Pacific Coast league.

The outlook is favorable for the Seraphs, who meet the tall end Seattle club at the northern city, while the Tigers will have to withstand the heavy assaults of the Bees at Los Angeles. The Bengals and the Bees broke even in the series just finished at the Mormon city.

Oakland and San Francisco, occupying sixth and fifth places respectively, enter their last home week in the bay district.

The Yippers will spread their noise in Portland, the latter club just covering itself with glory by taking four of the six game series with Seattle.

FAST AND SLOW AUTO RACES HELD AT FAIR

HANFORD, Cal., Sept. 23.—A challenge auto race of 25 miles featured the second day of the Kings county fair, being held here this week. For this event William Erwin, Vic Tandy, Clarence Tomer, E. G. Uzzell and Bert Spear have put up a purse of \$100 each with the fair board's purse of \$500, totalling \$1000 for the winner of the event.

The race is to be contested by local cars and drivers.

The second race event of today will be the slow auto race for touring cars in which each owner will be required to put up \$5. the total pot going to the slowest running car.

AULD LANG SYNE CLUB MEETING IS ENJOYED

GARDEN GROVE, Sept. 23.—The Auld Lang Syne Club met at the hospitable home of Dr. and Mrs. W. B. Hill in Long Beach Friday. Many fond memories of other days were recalled and a sumptuous repast was served at 1 o'clock.

Dr. Burns Chaffee entertained the company with some of his stereoscopic views taken while he was serving the colors in France.

It was decided to hold the next gathering on November 20 with Mrs. Jessie Taylor, 515 South Western avenue, Los Angeles.

The members present were: Mesdames Jessie Taylor, Sarah Newsom, Jennie Johnson, Louise Ellsworth, Mina Newsom, Glee Newsom, Lida Mitchell, Carrie Chaffee, Agnes Oldfield, Estelle Harper and Miss Mettie Chaffee.

The guests of the club were: Dr. Burns Chaffee, W. B. Harper, Miss Mildred Harper, Mrs. Metzgar, Mrs. Fannie Newsom, Mrs. Ella Miskin, Mrs. Blanche Chaffee and Mrs. Ellen Chaffee.

J. P. MORGAN APPROVES GARY'S STRIKE STAND

NEW YORK, Sept. 23.—J. P. Morgan, in a cablegram from London to Judge Elbert H. Gary, chairman of the United States Steel Corporation, heartily approves of his open shop stand and urges the steel corporation to be firm in its attitude.

The cablegram is as follows: "Heartiest congratulations on your stand for the open shop, with which I am, as you know, absolutely in accord. I believe American principles of liberty are involved and must win out if we all stand firm."

Dr. Magill, Osteopathy, Phone 956-56.

European Banties Want to Try Their Luck With One Johnny Kilbane

NEW YORK, Sept. 23.—About the best sport boxing fans can find now is picking a man to meet Champ Jack Dempsey.

The Salt Lake mauler is doing a vaudeville turn now and making \$15,000 a week for showing his face about twenty-two minutes daily back of the footlights.

But he doesn't like it, Jack Kearns says, and he longs for real action. British fans want him to come over and meet Joe Beckett. They think since their champion disposed of poor Eddie McGoorty, poorly trained, old and, a has-been, that Dempsey will be meat for him. Kearns says he has been offered \$175,000 to cross the briny deep and stack his "Giant Killer" against Beckett. On the surface that oration of Kearns sounds like a "pipe," but if he really did get an offer like that he had better take his boy over there because American fans will never put up a purse near that amount to see Dempsey fight any more second raters. And that's what Beckett looks like, since it took him seventeen rounds to dispose of McGoorty.

Benny Valgar and Joe Lynch, the ambitious little fellow, are fighting a bloody battle in the newspapers about which one deserves the right to take a fall out of Champion Johnny Kilbane. Then there is the crown of Pete Herrman, the bantam king, which has also been attracting the envious glances of Lynch. Since the Waterbury affair the Irishman claims he can put the Crescent City boy out with one hand tied behind him. But Pete doesn't want to fight him.

Jimmy Wilde, the British flyweight champion, is coming over here with a burly sack for all the loose coin he can pick up. Jimmy had the fans in a humor to stick out their hand and say, "Welcome" when he announced that he would take all comers. But, on the eve of his departure he hedges a bit and says he is not willing to meet Del Moore Lynch or any of the first-rate American boys.

Jack Britton has been off his stride from illness and hasn't had a go since he cancelled with Jock Malone at Canton, Labor Day. Benny Leonard, the lightweight king, is hopping about knocking off all the easy birds. He seems to have the best plum of the season picked for a nice plucking if there is anything in the report that he has been offered \$20,000 to take on Old Charley White Thanksgiving in Denver.

County Bonds

California county obligations are the premier municipal investments of the State for the following reasons:

- 1st—County debt is limited by law to 5 per cent of assessed valuation.
- 2nd—State Board of Equalization under the law shall include in State tax levy the amount necessary to pay interest and principal on county bonds, should county officials fail to make provision.
- 3rd—Purposes for which counties may issue bonds are limited, and are uniform among all the counties of the State.
- 4th—Counties cover a considerable area and usually embrace within their lines several diversified wealth-producing industries.
- 5th—Exempt from all Federal income and State Property Taxes.

First Methodist Church Closes Conference Year With All Its Debts Paid

At the end of this conference year, the First Methodist Church of Santa Ana is free of debt. It has paid the last dollar of a \$3,000 debt that was still lingering when Rev. John Oliver arrived as pastor a year ago, the last of an expenditure of \$12,000 in remodeling the church building a few years ago. The fact that the church is free from debt will be reported at the Southern California conference next week.

This freedom from debt is not the only evidence of the good financial condition of the First Methodist Church. Last night at the adjourned meeting of the quarterly conference, the pastor's salary for the coming year was raised \$500, and a purse of \$250 to be added to his salary for the past year was given Rev. Oliver.

The church, too, last night ratified the selection of Mrs. Guthrie as pastor's helper for the church. Mrs. Guthrie has been connected with the Centenary movement at Sacramento, and is thoroughly experienced in the line of work that she is to do in Santa Ana.

The First Methodists have also taken over charge of the Richland Avenue Methodist church in this city, and the pastor of that church is to be associate pastor of the First Methodist church, which is to aid in the support of the Richland church.

Selecting Delegates

At the quarterly meeting last night fifteen delegates were elected to go to the Laymen's Association of the Methodist Church, which is to hold its meeting Thursday and Friday of next week at Santa Barbara.

The forty-fourth annual session of the Southern California conference of the Methodist Church is to meet at Santa Barbara next week, starting Monday at 1 p. m. and continuing through the following Sunday. The Women's Foreign Missionary Society of the churches will also meet at Santa Barbara next week.

The general expectation and hope among the members of the First Meth-

"BAYER CROSS" ON GENUINE ASPIRIN

COURTHOUSE NEWS

PRISON TERM IS GIVEN FORMER U. S. OFFICER

Man Who Pleads Guilty to Robbing Oil Station Sent to San Quentin

Entering a plea of guilty to a charge of robbing an oil station at San Juan Capistrano on September 2, Preston C. Lamb, 22, formerly an officer in the aviation branch of the army, was today sentenced by Superior Judge Williams to San Quentin for not less than one year.

Asked by the court as to what motive he had in carrying out the robbery at San Juan, Lamb told the court, "I just listened to persuasion a little too much. I was with a surveying party, working for the Southern Pacific, when I met a man in Los Angeles. He was a likeable chap. He persuaded me to go with him."

Lamb did not have a gun, he said. His companion, who, Lamb told the court, had been in the Canadian army, was armed. While the man with the revolver covered R. A. Gibbons, in charge of the oil station, Lamb, he said, robbed the till. The sum of \$46 was taken.

Following the robbery, the two men fled in an automobile toward San Diego. Their machine was wrecked near Oceanside, where Lamb and his companion were arrested. Lamb's friend later made his escape.

"Didn't you realize that robbery is a severe offense and when men start out to rob they are generally ready to commit murder if they are resisted?" the court asked.

"No, sir," answered Lamb; "I hadn't given that much consideration." Lamb told the court that it was not the need of money which caused him to enter into the robbery, because he said, he could get money from home any time he wanted it.

Lamb said he was an officer in the aviation branch for nineteen months, being stationed at Ellington Field, Texas.

When sentence had been pronounced, the court said, "I don't believe much in lecturing men. Now, the thing for you to do is to go up and take your medicine with as good a heart as you can and get out as soon as you can and try to do right. That's all."

Lamb was represented by Attorney H. C. Head, who had been appointed by the court.

TO DRAIN AND CLEAN COUNTY PARK LAKE

At the next meeting of the board of supervisors Supervisor N. T. Edwards will make a motion that the lake at the Orange County Park be drained, in order that it may be cleaned, it was stated at the courthouse today. For several months the lake have been allowed to fill with the fish, with the result that most of the fish have been taken out, making it possible to proceed with the work of draining and cleaning. Supervisor Edwards and County Purchasing Agent F. W. Slabaugh visited the lake last night and made an examination which resulted in the former's decision to take steps looking forward to the cleaning of the lake.

Justice Court Civil Cases Few, Shows Bills Are Paid—Cox

THE fact that in three months only six civil actions have been filed in the justice court of Santa Ana township is pointed to by Justice Cox as indicating that people are "paying their bills."

In July only two such actions were filed with Cox. In August there were three, and so far this month there has been only one. "That means that people are paying their bills," said Justice Cox today. "It means either this, or that whenever difficulties arise as to payments, adjustments are reached without recourse to legal procedure."

Justice Cox stated that he knew of no actions filed during the past two years in which garage owners sought to secure payment for repair work done on automobiles. This is an indication, in Cox's estimation, that people who own machines have money to spend, and that in nearly every case repair bills are paid promptly.

Justice Cox estimates that there are approximately 20,000 residents in Santa Ana township.

ELECTED BOARD MEMBER

Bertha Paul Dowling has been elected a member of the board of library trustees of the Placentia library district, for a term expiring June 30, 1921, according to a certificate filed today.

SOUTHERN CALIFORNIA

POMONA, Sept. 23.—James Wolstencroft, manager of the Walnut Growers' Association, has just completed an estimate of the new crop of walnuts which will be ready for picking and shipping within the next two weeks. Figures indicate that there will be harvested the greatest crop in the history of the valley.

SAN DIEGO, Sept. 23.—Robert I. Butler, sergeant, first class, attached to the Sixth Aero Squadron, was instantly killed at Rockwell Field yesterday when his airplane crashed to the ground from an altitude of 150 feet. The mishap was caused by the sudden breaking of a knuckle in the steering gear.

REDLANDS, Sept. 23.—Plans have been announced for a disbandment of the Redlands, Yucaipa & Crafon Water Company and a closing of the affairs of the company, which has been in operation since the first development of water for Redlands twenty-seven years ago.

PASADENA, Sept. 23.—The construction of a Greek theater at the Arroyo Seco which will rival that of the University of California is being considered as a possibility for Pasadena by the Arroyo Seco Citizens' Committee and the city officials.

SAN DIEGO, Sept. 23.—Passengers who ride in airplanes for travel or amusement are exempt from paying war tax, according to a ruling of the Department of Internal Revenue. The ruling was made on request of department agents of Southern California, where the commercial use of the airplane is developing. Those who seek the lesser thrills of the merry-go-round and roller coaster, however, will continue to pay war tax.

BRAWLEY, Sept. 23.—Imperial Valley ice is finding a market as far east as Evanston, Wyo., it was announced today. This is the first time ice has been shipped out of the valley during the hot summer months. Shipments yesterday aggregated twenty-five carloads.

VENTURA, Sept. 23.—With an increase of \$295,499.61 over the total tax of last year, the taxes of the county apportioned for this year are \$1,252,463.94. The increase is due largely to demands made by the people for improvements.

RIVERSIDE, Sept. 23.—Gen. Alvaro Obregon has refused an invitation to attend this year's Southern California Fair at Riverside. In replying to the fair directors' invitation, Obregon expressed himself in terms of polite regret, saying business affairs would keep him at home, but in a less formal message to friends here he explained that Mexican laws forbid a candidate for president leaving the country for one year before election day, which occurs on July 1, 1920.

VENTURA, Sept. 23.—What is believed to be the highest price ever obtained for real estate in Ventura county has been paid by John P. Thille to Chester Knox for his thirty-five acres of young bearing walnut trees in the Mound district. The purchase price was \$78,750, or \$2250 per acre. The present crop goes to the new owner.

AMICABLE PACT IS LOOMING IN WIDOW'S SUIT

Opposing Sides May Reach Out of Court Settlement, Forecast

Amicable settlement out of court of the suit brought by Mrs. Agnes Maganety of Long Beach against J. N. Kint, also of Long Beach, for \$10,000 damages, as a result of alleged defamatory utterances on his part, was forecast following the appearance today of both parties before Superior Judge Williams who at the request of counsel for both sides, granted a continuance in the case until October 6.

It was stated by Attorney John E. Daly of Long Beach, counsel for Kint, that a friendly adjustment would probably be reached out of court, not alone of the \$10,000 damage action but of an action brought by J. M. McMullin of Smetzer to foreclose on a mortgage held by him on the Long Beach property of J. Hayes Maganety, who was killed last October in an automobile accident at Anaheim.

The distribution of Maganety's property under the administration of Kint, who, following litigation, was appointed administrator of the estate, together with a final adjustment of various disputes arising over the dead man's beach holdings appears certain today.

Mrs. Maganety was in court with her attorney, A. E. Koepsel, of the firm of Eden & Koepsel of this city. Witnesses for the plaintiff, who were present today, will be again available to give testimony when the damage action is called on October 6, Koepsel told the court.

Artificial arms and legs were, it is believed, used in Egypt as early as 700 B. C. They were made by the priests, who were the physicians and surgeons of those days in the land of the Nile.

CAVE-IN AT ICE MARTIN BOMBER PLANT FILLS UP WELL

Leaving two condensers, weighing 1000 pounds each, precariously suspended on a "table" of concrete only about five inches in thickness, several tons of earth around a well caved in at the plant of the Santa Ana Commercial Company on East Fourth street, causing damage as yet unestimated.

Water from a leaky pipe undermined the earth around the well. For how many weeks the cave-in was in progress it was impossible for officials of the company to determine. The fact that there had been a cave-in was discovered Sunday morning.

The well in question may be a total loss. Pit experts will be asked to make an investigation with a view to determining whether it will be possible to remove the earth that has filled in the pit and save the well. It is estimated that from 200 to 300 wagonloads of earth will be required to fill in the hole, should it be decided by the company to abandon the well and rely on another well which the company has on the premises.

Immediately the cave-in was discovered the two condensers were suspended by means of chains attached to heavy timbers placed across the top of the tanks. It is a mystery why the condensers failed to break through the concrete flooring and fall into the hole beneath.

The particular department at the plant affected by the cave-in was scheduled to resume operations at 4 o'clock this afternoon.

Sycamore Rebekah Lodge No. 140 will give a dance on Tuesday night, Sept. 23, 1919, in I. O. O. F. Hall. A good time guaranteed. Come.

Plane Circling United States Is at Helena, Mont., Today

The Martin bombing plane circling the United States is on its way to Santa Ana, but nothing definite as to when it will arrive here is known.

The plane started out to go around the edge of the United States and through the influence of Glenn L. Martin Santa Ana is included in the points at which it will stop.

Martin advised Secretary Metzgar of the Chamber of Commerce some weeks ago that he had been successful in having Santa Ana named as a point for stopping and he promised to advise when the plane would arrive here. He no doubt will make good that promise.

The plane today is at Helena, Mont. What it is doing so far inland is not known. It is in command of Col. R. M. Hartz. He and the crew of four men were entertained at a banquet at Billings last night.

If the machine comes direct into California, it should not be many days before it reaches this point.

This is not the cross continent trip that was planned for a Martin bomber.

A London choir of 1000 voices has been organized under the auspices of the League of Arts, to sing at public ceremonies.

In England a sender of a telegram can cancel it, if transmission has not begun, by paying a fine of a few cents.

WAISTS

Priced from

\$5.50 to \$8.50

We take special interest in our waist department—here we carry the best assortment in the newer styles. The models we are showing in Georgette Crepe and Crepe de Chine are especially attractive.

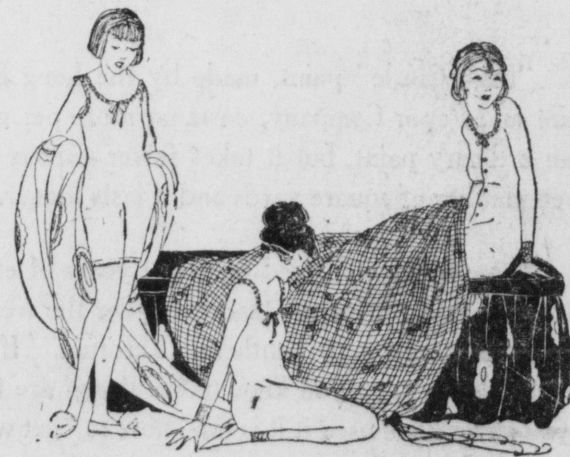

SKIRTS

It will pay you to look at our Fall Line of Skirts. The showing is very complete and includes silks, serges, gabardines and beautiful plaids.

Priced from \$8.50 to \$18.50

Underwear Department

Our Knit Underwear Department is now located on second floor. Here we are better able to care for your needs in undergarments.

All lines for children, misses and women is very complete in various weights and grades.

Don't forget E. S. Gilbert & Co. when selecting the warm garments for the coming winter days.

THIRD HAS PROMISING FUTURE AS RETAIL BUSINESS CENTER

ORANGE PACKING IS HELD UP BY CAR SHORTAGE IN COUNTY

Shipping May Not Be Completed Before December 1, Says L. D. Palmer

Shortage of refrigerator cars is likely to delay the completion of the Orange County Fruit Exchange's Valencia shipments until possibly December 1, according to Manager L. D. Palmer, today.

Scarcity of rolling stock has been felt for the past week or ten days, Palmer states. It is hoped, however, that the situation will be somewhat relieved within a few days owing to the decrease in demand for cars by deciduous fruit shippers.

Manager Palmer attributes the shortage of rolling stock to the fact that during the past two years comparatively few cars were built. In addition to this, he states, large numbers of cars which need repairs have not been put back into service owing to the lack of sufficient labor for the work. Heavy demands have also been made by shippers of deciduous fruits.

"We had hoped that we would complete our shipments this season by about November 1 the time when shipments are generally completed," said Palmer. "What with the delays incident to non-availability of cars it is doubtful whether our last car will be sent forward before the middle of November. It may be that it will be December 1st before we wind up shipments."

Look For Improvement
However, we look for the car situation to better itself in a few days. If this occurs, then of course there will be an immediate acceleration of shipments which will have a favorable bearing, also, on the picking crew outlook. Should the car scarcity continue the men working in the orange orchards will naturally have to find employment elsewhere chiefly in the walnut orchards. But if we are able to get sufficient cars we can keep our men on right along."

Palmer states that the Orange County Fruit Exchange has approximately 700 cars of Valencias remaining to be shipped.

Up to the present time, according to Palmer, the labor situation in the Valencia orchards has been favorable, demands by walnut men for pickers not having been exceptionally heavy.

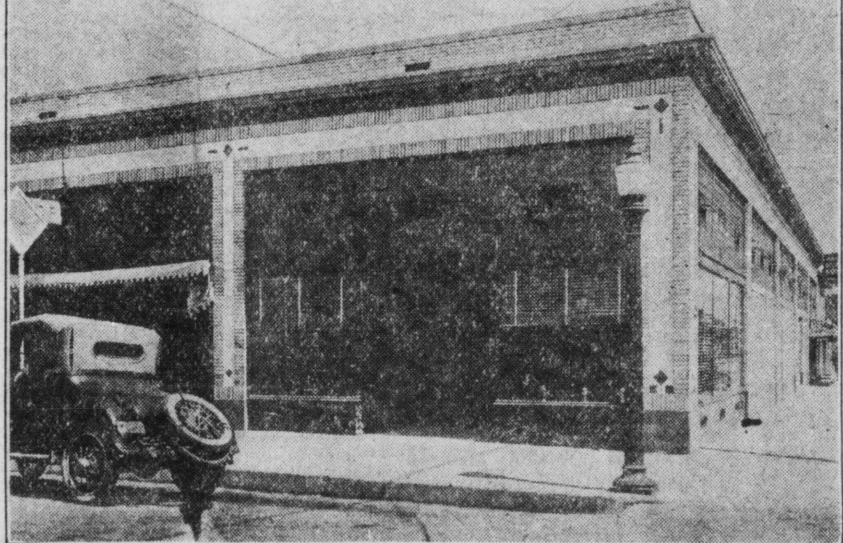

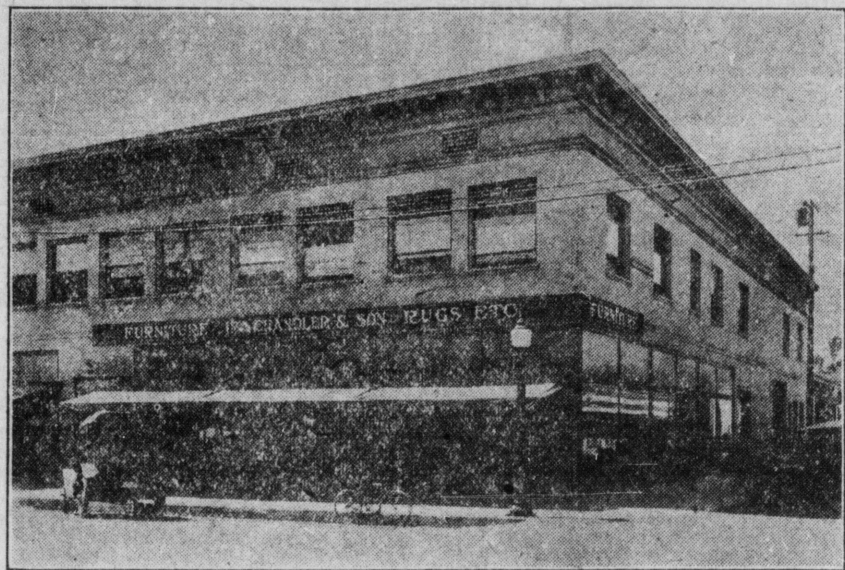

The Valencia market is declared by Palmer to be in good shape. Deciduous shipments have eased off and this has had a naturally favorable bearing on citrus sales in the East.

Monrovia and Duarte citrus fruit growers are shipping their Valencia crops out as fast as they can be packed, according to advices today. Little difficulty is being experienced in these districts in the matter of securing cars. The Duarte-Monrovia Fruit Exchange is shipping approximately a car per day. All refrigerator cars are being overloaded from 396 to 460 boxes, as per instructions promulgated by the Railway Administration.

Some of the Substantial Structures Which Lead the Way for the Business Development of Third Street

UPPER LEFT—Chandler's New Furniture Store, southwest corner of Third and Main; UPPER RIGHT—New Meyer Apartment-Hotel, northwest corner of Third and Spurgeon; LOWER LEFT—Temple Theatre, southwest corner of Third and Bush; LOWER RIGHT—C. F. Smith building at northeast corner of Third and Main, occupied by Southern California Edison Company.

Residents Must Deposit 50 per cent of Cost of Washington Sewer Line

RESIDENTS of Washington avenue will have just one week in which to decide whether they want a sewer on the street badly enough to deposit cash with the city clerk to the amount of half the cost of installing the system. The cost to the property owners will be 17 cents per front foot.

This is the answer to a petition filed with the board by owners between Washington avenue and Seventeenth street and verbal request of interested owners between Seventeenth and Santa Clara. The city council will go 50-50 with the property owners. The owners must deposit with the city clerk their portion of the cost by next Monday evening.

The section is made in two divisions, so that if one fails it will not block the work altogether. The requirement for cash deposit does not mean that one owner may deposit the cash for his frontage and his neighbor not. Fifty per cent of the full cost of the work in either division must be in the hands of the city clerk by Monday evening. The district between Washington avenue and Seventeenth street is in greater need of the sewer than the section north, and the residents of that district are more anxious for the connection.

Paving work is now in progress on Grand avenue north from Fourth street, the Orange County Engineering and Construction Company having the grade ready as far as Grace street. The formation of a district for raising funds to put the sewer in north of Washington avenue would delay paving for at least two months, and the council does not feel disposed to hold up the work for that time, and is giving the property owners one week in which to evidence their intention to install the sewer by depositing fifty per cent of the cost at once.

Third Street Fast Coming To the Front as Important Thoroughfare of Business

Third street's advancement as a business thoroughfare during the past few years has been remarkable. It used to be a "side street," lined with ramshackle structures or none at all.

But now things have remarkably changed. Both new and old business firms have sought and found suitable locations on Third street, and its importance to the business life of the city is growing daily. New structures are fast replacing the old, several others are planned for the near or distant future, and before many years Third street is without a doubt going to be one of THE most important business streets in town.

Third's present importance may be judged from the following directory of business firms now located on this street in the downtown district:

West

COMMERCIAL EXPANSION SOUTHWARD IS UNDER WAY, GREAT GROWTH INDICATED

By WAYNE GOBLE

"THIRD street is going to be, within a few years, one of the most important business streets in Santa Ana and will rival Fourth street for first rank."

"Third street development the past few years has been remarkable and as the commercial activity of the city expands southward, as it is doing, Third will continue to grow rapidly until it is a valuable part of the shopping district and the home of many substantial business firms."

"Third is geographically located to become the second best, if not THE best, east-and-west business street in Santa Ana."

"Third street is building up, and with the continued co-operative boosting of property owners, Third is well on its way to a sure and prosperous future."

"YOU CAN'T BEAT THIRD STREET FOR BUSINESS OR INVESTMENT!"

Here, in brief, you find the progressive outlook on life by those lucky enough to own property on Third street.

Some have seen Third street grow from a barley field to its present importance and the future of their interests is indeed bright.

Already there are more than thirty business firms located on Third street, in buildings representing an expenditure of approximately \$300,000, and the end is not yet. There are still many desirable building sites on Third, both east and west of Main street, and there is hardly a property owner but who is figuring on substantial improvements, either very soon or within a year or so.

One or two have been publicly announced, but there are several other building propositions under way for Third which have not yet progressed to the point where they can be made public, and some interesting announcements may be expected within the next few months.

More Than Quarter Million In 3d. St. Business Buildings

To stand at any one spot and look down Third street one would not realize the amount of money which has been spent for permanent improvements along the thoroughfare totaling approximately \$300,000. This does not include the city hall building, which itself is an important part of Third street.

The Third street business buildings and their approximate cost, not including the land, are as follows:

New Meyer Apartment Hotel	\$100,000
H. D. Meyer, owner	
Athletic Club Building, S. A.	25,000
Bathhouse Co., owner	
So. Cal. Edison Co. Building	25,000
C. F. Smith owner	
J. T. Kinslow Apartments	20,000
F. L. and L. C. Mitchell	10,000
Temple Theatre, L. O. Vaughn, owner	30,000
Central Garage Building, Clinton Andre owner	10,000
L. J. Carden, C. G. Seamans Building	10,000
Postoffice Building, W. H. Spurgeon Realty Co.	20,000
Chandler's Furniture Store	20,000
F. W. Stanley Block	10,000
Register Building, J. P. Baumgartner owner	20,000
Pacific Coffee Store, L. O. Vaughn, owner	1,000
Supply Station Third and Broadway, Fine and Gilbank, owners	2,000
Electric Garage Third and French, E. E. Vincent and G. B. Roth	10,000
Central Auto Parking, L. O. Vaughn owner	3,000

APPROXIMATE TOTAL ..\$316,000

investors being directed toward this growing section.

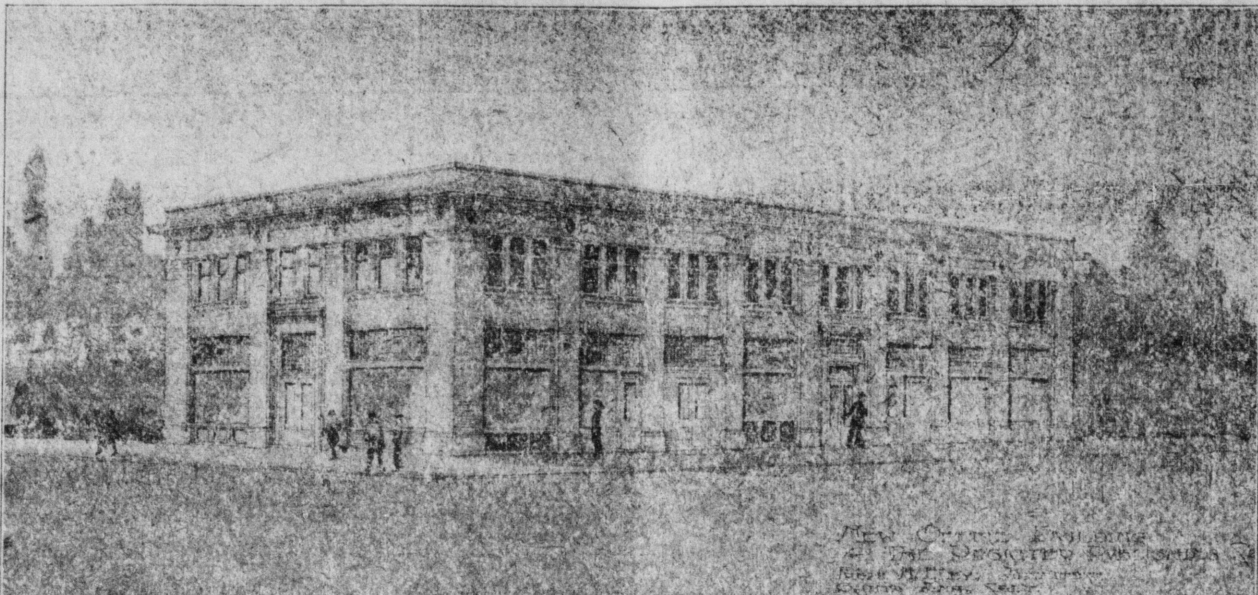

As increased building takes place on Third street, property values are increasing and they will increase largely as the years go by. There's no doubt of that. Several of the owners of vacant property on Third appreciate this fact and are planning to build just as soon as they are able. One owner says he could build now with the assurance of a twelve per cent net return on his investment, even at the present prices of building materials, but he isn't financially able at this time to carry out the improvement.

Others have had the opportunity to build, but the class of business offered was not desired, and they have been holding off until they could build really creditable buildings for really desirable business firms. When a few more of these firms begin to seek new locations on Third street there will be a development on this street that will surprise even the most optimistic.

Fifth street, now declared to be the best east-and-west business street in town, will surely have to look to her laurels for Third street is up and coming and it looks like there will be a merry race between Third and Fifth for the "Right Bower" position, with many believing the advantage lies with Third.

Fifth has had a great growth in recent years and hasn't yet got its full stride, nor will the growth and development now setting in strong on Third retard the rapid advance of Fifth. Fifth has built up the past three years into "Auto Row" and will probably remain the center of the auto and garage industry in the years to come, with property, both east and west of Main street, worth much more than before the "Auto Row" development set in strong.

Meantime Third has not been standing still, and is now striking a lively trot. Third has a couple of garages, to be sure, but she has been content to let Fifth become "Auto Row," and now Third is "setting her cap" for a string of retail business firms. Third and Fifth appear to be rivals for pro-

UPPER LEFT—Kinslow apartments at Third and Spurgeon streets, always full and turning people away every day for lack of room, two 4-room, two 2-room, two 3-room and one 5-room apartment, with two 5-room modern bungalows adjoining on Spurgeon street. Upper right, looking east on Third across Sycamore street, showing corner of Register and Postoffice buildings, Stanley and Chandler buildings on right, and Carden-Seamans and Central Garage buildings on left. Below, The Register building at Third and Sycamore, occupied by the Daily Register and the A. G. Flagg printing and bookbinding plant.

gress, but Third, it appears, will really be a rival of Fourth street for the favor of the kind of retail business firms which make Fourth street what it is today, and for the favor of the shopping public.

"Santa Ana must have more room for retail business," says Charles F. Smith, president of the Chamber of Commerce and owner of the south-front lots between Main and Bush streets. "The garage and auto business is going to Fifth street and logically and naturally the extension of retail business must be southward from Fourth and east and west from Main, along Third street."

"I believe Third street should be developed with store frontage suitable for all kinds of retail business. This has been my aim and desire, and eventually I shall put up a good building on Third and Bush streets and face the store rooms on Third, believing it the right thing to do for the future of Santa Ana."

"Third street is going to be an important business artery and I believe all property owners on Third street should be encouraged and urged to face their rooms on Third, instead of the intersecting streets, and thus prepare the way for greater growth than would otherwise be possible. The Third-front rooms in the F. W. Stanley block on the southeast corner of Third and Sycamore and those in the new Carden and Seamans building on the north side of Third bring business activity to the street and I believe all new buildings should be built in this manner to face Third."

In this stand, Smith is backed by several other Third street owners, including F. L. Mitchell, whose two store rooms at Third and French face Third street.

"I think the Third street buildings should face Third street," said Mr. Mitchell, "for Third is the next logical business street next to Fourth and property owners can so build as to make Third street the next important east-and-west street. Third has no trucks and is thus better situated for automobile traffic than Fourth."

Mr. Mitchell believes Third street

is handicapped at the present time by the dips in the pavement at several of the street intersections, so built that they continually threaten the equilibrium and pleasure of motorists and the life of auto springs. These sharp dips are a disgrace, Mitchell believes, and he thinks the property owners should unite to see that they are either eliminated entirely or else given a more gradual slope so they will not interfere as they do with automobile traffic on the street.

Incidentally, Mitchell owns fifty feet of frontage adjoining his present building upon which he will build when assured of a permanent tenant.

There's no doubt about it, Third has a most promising future and will be next in importance to Fourth street, according to L. O. Vaughn, owner of the Temple theater at Third and Bush and owner of all the north front lots on Third between Bush and Spurgeon.

"Third has already progressed so far that anyone may glimpse the prospective development of the future," said Mr. Vaughn. "Fourth street is already filled with business buildings, Fifth street is filling up with garages, and business expansion south along Third street is certain."

Before the war, plans were under way for a substantial addition to Third street on the Vaughn property between Bush and Spurgeon. While no definite action was taken, the project, it is understood, has not yet been entirely abandoned and may be revived at some future time. Until such time as a big permanent improvement may be made, Vaughn has fitted up his Third and Bush property as the Central Auto Park, conducted by C. I. Talbot, which it is believed will be a great convenience to motorists. At least, the success of the place to date has been most gratifying, and leads

to the benefit that it will continue to grow in value to the community. This auto park is a worth-while improvement at the present time, but there is no question but that it will be replaced at some future time by a substantial business block.

"It is quite obvious that Santa Ana is growing too large for a one-street city and will logically broaden on the next parallel streets to Fourth and I believe will have a tendency southward rather than northward," according to Joseph Gilmaker of San Francisco, owner of the west side of Broadway between Third and Fourth.

"Fifth street has developed into an 'Auto Row' and shop district and this character of business will not mix with general retail store business, and the public buildings and squares cause 'breaks' which will bar expansion further northward."

"But the Third street district all the way to First street is practically free from these drawbacks and it would be feasible to build this up into stores. I do not think Third street would be skipped for the next street, and this is what inclines me to the idea that Third will be the next parallel business street to be filled."

In 1879 when George W. Minter took up his residence at Third and Birch streets, where he has lived ever since, there was not a single business building on Third street. Part of it was vineyard, but most of the Third street frontage was in barley. East of French street the acreage had not been subdivided. For forty years Minter has watched Third street grow to what it is today, and is one of its most enthusiastic boosters. Minter has seen East Third street opened east of French, and the entire street gradually improved until today it is a paved thoroughfare, lined eastward and

westward by happy homes, and in the business district with \$300,000 worth of business buildings, all occupied.

"There is no question but Third will be an important business street, and the prospect, to my mind, is very bright," said Mr. Minter. One important item is that the postoffice is on Third and the prospects are that it will remain on this street."

Build for the Future

A feature of importance is that at least two Third street property owners have built for the future in this, that while their present modern structures are only one story in height, they are upon foundations which will carry buildings of two or three stories. The present buildings suffice for present needs, but the owners foresaw the growth of the future, and when the time comes they will be able to increase the value of their buildings by adding a story or two to the present structures.

This is notably true of the C. F. Smith building at Third and Main, occupied by the Southern California Edison company, and the new Carden and Seamans building at Third and Sycamore. Another story or two on these buildings will be justified before many years and can then be added with a minimum of extra expense. The Smith building especially is a sturdy structure and probably capable of carrying three additional stories.

Two very desirable additions to Third street business life are the Chandler furniture store and the Edison company offices, on opposite corners at Third and Main. Both firms were formerly located two blocks farther north on Main, and their removal southward tends to show the increasing desirability of business locations a block south of Fourth street. That the change was a profitable one, at least for the Chandler firm, is shown by the recent Chandler purchase of the building which the furniture store now occupies. As time passes, other firms of this character will find locations here and help to make this the Third street of the future.

This week also sees the occupation of the new Carden and Seamans building at Third and Sycamore, which is a creditable addition to the street and brings several new business firms to this central location. The erection of this structure when building costs are so high, shows conclusively the faith which its owners have in Third street's future.

With all the property owners believing in Third street and boosting for it, with Aaron Buchheim proposing to erect a substantial block on his property at Third and Bush streets and many other owners contemplating building, it appears certain that Third street is due for a big development which will increase the value of every foot of Third street land and help to make Santa Ana a better city in which to live. As Third street, or any street, advances, it helps the entire city to move forward, so that in their efforts to develop Third street the property owners will undoubtedly have the cordial support of everyone in Santa Ana.

SHAW & RUSSELL

Third and Sycamore

tracts expire on December 1, was evidenced by a discussion of the purchase of equipment for such work. Sanitary Inspector Chandler warned the council that only two months remain in which to acquire the equipment, and complete plans for taking up the work.

About three tons of garbage is collected daily in the city. The discussion led into other channels, going into other motor equipment needed by the city and when it was all summed up it stood out plain that it would cost about \$15,000 to put the city on the map with implements that are sorely needed for doing city work. This amount staggered the councilmen. The money is not available. The subject died out without anything definite being done.

Council Briefs

An ordinance providing that all second-hand mattresses and other goods brought into the city must be fumigated was read for the first time and referred back to the city attorney.

Offer of Frank Teel of 25 cents per load for gravel in the city gravel pit at Flower street was taken under advisement. The city contemplates making several thousand feet of cement pipe for use on the sewer farm and the council was in doubt as to whether

it would be good business to sell the gravel, in view of the fact that it may need it later for its own work. Decision will be made later.

Bid of Wells and Bressler for paving in front of McKinley school on Second street at 9 cents per square foot and 14 cents and 18 cents per foot for four and five-inch concrete gutters was accepted.

Charles L. Davis was given permission to install two gasoline tanks in the parking on Sixth, at Broadway, where a new garage is now under course of construction.

The city clerk was instructed to order two directories of the new issue, which the Santa Ana Directory Company is preparing to publish. The cost is \$6.50 per book.

Wells and Bressler were given permission to enter upon Shelton street for paving with rock and oil between Fourth and Fifth streets.

Mayor Mitchell announced that he had cancelled the order given by the city for forty tons of government bacon. He was satisfied from the experience had here last Friday in the sale of bacon brought over from Long Beach that it would be difficult to sell that amount of meat in this city.

Palmer's Print Shop

My printing is its own advertisement; the steady customers I have served the past ten years testify to that. I'm busy, of course, but not too busy to give my best attention to any job of printing you may have.

This shop is equipped with proper presses, stapling machine, etc., to turn out all classes of commercial work, booklets, etc.

114 WEST THIRD STREET

Shoe Repairing

Shoes are going to be high, factory men tell us, for some time to come. The production of shoes cannot keep up with the demand, costs have increased, and there's little hope for an early reduction in prices.

The only relief is to wear your shoes longer and have them repaired oftener. I'll do it right, if they're worth it, if not, I'll tell you so.

I have some new shoes that are REAL SHOES for children. (Goodyear welt). Let me show them to you
